The public hearing of RPNY Solar 6, LLC was opened at 3:30 p.m. at Batavia Town Hall, 3833 West Main Street Road, in Batavia, New York, Genesee County, New York.

A notice of this public hearing describing the project was published in the Batavia Daily News, a copy of which is attached and is an official part of this transcript.

**III. PROJECT SUMMARY**

RPNY Solar 6, LLC is proposing to construct a community solar farm project on Alexander Road in the Town of Batavia. The project will utilize 8,346 solar panels and 24 string inverters on approximately 17 of 29 acres on the property to convert the sun's energy into 3 MW of AC power. The project will utilize single axis tracking technology to allow the modules to efficiently track the sun throughout the day to maximize the efficiency of solar collection.

The project will provide enhanced property tax payments via a 15-year PILOT that are significantly greater than the current agricultural-vacant land value of the project. The project's PILOT will contribute \$4,000/MWAC + a 2% annual escalator in payments to the Genesee County and Alexander Central School District in addition to revenue in a separate host benefit agreement with the town of Batavia. The PILOT is estimated to generate \$207,521 in PILOT payments over the 15-year term. The project will also fund a community benefit agreement for workforce development and economic development projects in Genesee County.

The project is aligned with New York's aggressive goals for renewable energy, energy efficiency and greenhouse gas reductions, and will offer customers a 10% discount vs average market rates for the generated power.
