3.0 Report of Management

3.1 Fore Front Power – Final Resolution – The company is planning a community solar farm project in the Town of Elba. The project is a 5 (AC) MW solar generation system that will be interconnected with National Grid.

The project will provide enhanced property tax payments via a 15-year PILOT that are significantly greater than the current agricultural-vacant land value of the project. The project will contribute $6,000/MWAC + a 2% annual escalator, with the 5 MWAC solar farm generating in excess of $518,000 in PILOT payments over the 15-year term. The project will also fund a community benefit agreement for workforce development and economic development projects in Genesee County.
The project is aligned with New York's aggressive goals for renewable energy, energy efficiency and greenhouse gas reductions, and offer customers a 10% discount vs average market rates for the generated power.

In addition to these benefits, the project is supporting the continued viability of the agricultural economy in Genesee County.

A virtual public hearing regarding the proposed incentives for the project was held on Monday, March 22, 2021. No written or oral comments were received.

See the Statement of Compliance of Project Criteria Listed in the Uniform Tax Exemption Policy (UTEP), attached to the minutes for additional Project details.

The addition will be comprised of two floors with a central elevator, which the existing building lacks, and laundry services and computer lounges will be available on each floor.

The company received assistance through the GCEDC for its original construction in the form of a 30-year PILOT approved March 1, 2009. DePaul seeks to amend the existing PILOT to account for the additional 20 units at the existing per unit PILOT rate. The additional units would be added to the existing PILOT schedule when they are placed in service, which is estimated to commence as of the due date for
the April 1, 2023 City PILOT payment. The total annual PILOT payments would increase by approximately $6,000 for the additional 20 units over the remainder of the additional PILOT. In addition, a sales tax exemption has been requested for the construction of the expansion.

A virtual public hearing regarding the proposed incentives for the project was held on Wednesday, April 14, 2021. No written or oral comments were received.

3.4 Overview of GLS Recommendations and Presentation – J. Krencik provided an overview of the findings presented by Didi Caldwell and her team at Global Location Strategies (GLS). GLS completed an extensive strategic analysis of the Western New York Science and Technology Advanced Manufacturing Park. The study included a SWOT analysis and a competitiveness analysis for projects in eight industries against six peer sites in the eastern United States. GLS recommends that STAMP's competitiveness with peer sites for projects will progressively expand with infrastructure construction. The study confirmed STAMP's market placement and provided prioritized guidance to the GCEDC staff.

3.5 Overview of State & Federal Legislation & State Budget – J. Krencik noted that the Agency continues to watch legislation as it develops, noting in particular the following:

1. Federal legislation that encourages investment in the development of the semi-conductor industry.
2. New York State has started an evaluation of how solar projects should be assessed.
3. As the number of people being vaccinated increases, public meetings may return to an "in-person" format as soon as June.

6.2 Contract B Award Recommendation for Force Main A total of six (6) bids were received for Contract B: North Area, which consists of installing 18,300 LF of 18-inch and 20-inch force main via open cut (14,400 LF) and directional drilling (3,900 LF) methods, along NYS Route 63, from the northern Refuge boundary to the Oak Orchard discharge location north of Shelby Center. Due to regulatory agency requirements, this contract has restrictive timelines. The work must be substantially complete within 180 days. Work may only take place between Oak Orchard Creek and Fletcher Chapel Road (1,800 LF in Contract B) between July 15 and December 1.

The low bid for Contract B: North Area was submitted by Highlander Construction, Inc. of Memphis, New York in the amount of $5,193,445.00. We have reviewed their qualifications and have discussed their bid in detail. We feel the bid received is a true representation of the costs to complete this project and that the contractor is qualified to complete the contract.
The GCEDC currently has approximately $2,600,000 that could be committed to this work. Due to the very restrictive annual time constraints for this contract, the level of effort required to obtain the many required agency approvals, and the amount of work remaining at STAMP to make it shovel ready for tenants, we recommend that the GCEDC award and compete as much of this contract as current funding allows.

Fund commitment: Not to exceed $2,600,000 covered under the $33 million.

This was recommended for approval by the Committee.

C. Yunker made a motion to accept the bid received from Highlander Construction, Inc. of Memphis, New York in the amount of $5,193,445.00 and authorize Deduct Change Order No. 1 in the amount of $2,593,445.00 for a total Contract B Award Amount of $2,600,000.00, contingent upon contract approval from NYS Empire State Development; the motion was seconded by P. Battaglia. Roll call resulted as follows:

6.3 KTA contract for TCP Assistance – As part of the STAMP development and the neighboring Tonawanda Seneca Nation, in accordance with Section 106 for the wetland permits, the GCEDC is working with the Tonawanda Seneca Nation on an assessment of the TCP potentials as it relates to the criteria for eligibility of listing on the National Historic Register. On March 6, 2018, the GCEDC Board approved a $2,500 not to exceed amount to KTA Preservation Specialists for work related to the TCP. This work would be to assist the GCEDC in the development of an analysis of any potential impacts that the WWTF could have on the Seneca Nation. This work had not been competed or started yet. With Plug Power committing to the STAMP site the GCEDC needs to complete an analysis for their project as well. KTA Preservation Specialists has revised their original proposal to increase the scope of work to include the Plug Project and is seeking to increase their contract from $2,500 to $7,200.

This was recommended for approval by the Committee.

C. Yunker made a motion to approve the consultant contract with KTA Preservation Specialists for evaluation of TCP issues not to exceed $7,200; the motion was seconded by A. Vanderhoof. Roll call resulted as follows:

P. Battaglia - Yes  
T. Bender - Yes  
M. Clattenburg - Yes  
A. Vanderhoof – Yes  
C. Yunker - Yes  
P. Zeliff - Absent  
M. Gray - Yes

The item was approved as presented.

6.4 Change Order #2 Pembroke Line – During construction of the Pembroke line, Morsch Pipeline has run into some unforeseen and unknown issues. One of the issues was sections of rock that were not found during the test bore drillings that were done prior to contracting. There was also one section of rock that was known but had archeological issues, so the plan was to directional
drill through the rock. The rock proved to be too difficult to directional drill through so a switch was made to open trench cut that section, but the archeological issue needed to be cleared first. The change order reflects the two items listed above.

Fund Commitment: Not to exceed $59,945 covered under the County funds.

This was recommended for approval by the Committee.

C. Yunker made a motion to approve Change Order Number 2 as presented; the motion was seconded by T. Bender. Roll call resulted as follows:

DePaul seeks to amend the existing PILOT to account for the additional 20 units at the existing per unit PILOT rate. The additional units would be added to the existing PILOT schedule when they are placed in service, which is estimated to commence as of the due date for the April 1, 2023 City PILOT payment. The total annual PILOT payments would increase by approximately $6,000 for the additional 20 units over the remainder of the additional PILOT. In addition, a sales tax exemption has been requested for the construction of the expansion.
