Section 1. The Company has presented an Application in a form acceptable to the Agency. Based upon the representations made by the Company to the Agency in the Application, the Agency hereby finds and determines that:

(A) By virtue of the Act, the Agency has been vested with all powers necessary and convenient to carry out and effectuate the purposes and provisions of the Act and to exercise all powers granted to it under the Act; and

(B) It is desirable and in the public interest for the Agency to appoint the Company as its agent for purposes of acquiring, constructing and equipping the Project; and

(C) The Agency has the authority to take the actions contemplated herein under the Act; and

(D) The action to be taken by the Agency will induce the Company to develop the Project, thereby increasing employment opportunities in Genesee County, New York and otherwise furthering the purposes of the Agency as set forth in the Act; and

(E) The Project will not result in the removal of a facility or commercial, industrial, or manufacturing plant of the Company or any other proposed occupant of the Project from one area of the State to another area of the State or result in the abandonment of one or more plants or facilities of the Company or any other proposed occupant of the Project located within the State; and the Agency hereby finds that, based on the Application, to the extent occupants are relocating from one plant or facility to another, the Project is reasonably necessary to discourage the Project occupants from removing such other plant or facility to a location outside the State and/or is reasonably necessary to preserve the competitive position of the Project occupants in their respective industries; and

(F) The Town of Pembroke Planning Board (the "Board") has conducted a review of the Project pursuant to Article 8 of the Environmental Conservation Law and 6 N.Y.C.R.R. Part 617 (collectively referred to as "SEQRA"). The Board issued a Negative Declaration on January 23, 2022 (the "Negative Declaration"), determining that the Project does not pose a potential significant adverse environmental impact. The Agency, having reviewed the materials presented by the Company, including, but not limited to, the Short Environmental Assessment Form and the Negative Declaration, further determines that the Project does not pose a potential significant adverse environmental impact and thus ratifies the Negative Declaration previously issued by the Board pursuant to 6 N.Y.C.R.R. Part 617.7. A copy of the Negative Declaration issued by the Board is attached hereto as Exhibit B.

Section 2. The Public Hearing held by the Agency on Monday, March 21, 2022, at 3:00 p.m., concerning the Project and the Financial Assistance was duly held in accordance with
the Act, including but not limited to the giving of at least ten (10) days published notice of the Public Hearing (such notice also provided to the Chief Executive Officer of each affected tax jurisdiction), affording interested parties a reasonable opportunity, both orally and in writing, to present their views with respect to the Project.

The Agency is hereby authorized to provide to the Company the Financial Assistance in the form of (a) a sales and use tax exemption for purchases and rentals related to the acquisition, construction, reconstruction, renovation and equipping of the Project, (b) a partial real property tax abatement structured through the Tax Agreement, and (c) a mortgage recording tax exemption as authorized by the laws of New York State.

Section 4. Based upon representations and warranties made by the Company in the Application, the Agency hereby authorizes and approves the Company, as its agent, to make purchases of goods and services relating to the Project, that would otherwise be subject to State and local sales and use tax in an amount up to **$1,900,000.00**, which result in State and local sales and use tax exemption benefits ("Sales and Use Tax Exemption Benefits") not to exceed **$152,000.00**. The Agency agrees to consider any requests by the Company for an increase to the amount of Sales and Use Tax Exemption Benefits authorized by the Agency upon being provided with appropriate documentation detailing the additional purchases of property or services.

Section 5. Pursuant to Section 875(3) of the Act, the Agency may recover or recapture from the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project, any Sales and Use Tax Exemption Benefits taken or purported to be taken by the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project, if it is determined that: (i) the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project, is not entitled to the Sales and Use Tax Exemption Benefits; (ii) the Sales and Use Tax Exemption Benefits are in excess of the amounts authorized to be taken by the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project; (iii) the Sales and Use Tax Exemption Benefits are for property or services not authorized by the Agency as part of the Project; or (iv) the Sales and Use Tax Exemption Benefits are taken in cases where the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project, fails to comply with a material term or condition to use property or services in the manner approved by the Agency in connection with the Project. As a condition precedent of receiving Sales and Use Tax Exemption Benefits, the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project, shall (i) cooperate with the Agency in its efforts to recover or recapture any Sales and Use Tax Exemption Benefits, and (ii) promptly pay over any such amounts to the Agency that the Agency demands.

Section 6. Subject to the Company executing the Project Agreement and the delivery to the Agency of a binder, certificate or other evidence of liability insurance policy for the Project satisfactory to the Agency, the Agency hereby authorizes the Company to proceed with the acquisition, construction and equipping of the Project and hereby appoints the Company as the true and lawful agent of the Agency: (i) to acquire, reconstruct, renovate and equip the
Project; (ii) to make, execute, acknowledge and deliver any contracts, orders, receipts, writings and instructions, as the stated agent for the Agency with the authority to delegate such agency, in whole or in part, to agents, subagents, contractors, and subcontractors of such agents and subagents and to such other parties as the Company chooses; and (iii) in general, to do all things which may be requisite or proper for completing the Project, all with the same powers and the same validity that the Agency could do if acting in its own behalf; provided, however, the Project Agreement shall expire on **December 31, 2023** (unless extended for good cause by the President/CEO of the Agency) if the Lease Agreement, the Leaseback Agreement and the Tax Agreement contemplated have not been executed and delivered.

**Section 7.** The President/CEO, Chair, Vice Chair and/or Senior Vice President of Operations of the Agency are hereby authorized, on behalf of the Agency, to negotiate and enter into (A) the Project Agreement, (B) the Lease Agreement, pursuant to which the Company leases the Project to the Agency, (C) the related Leaseback Agreement, pursuant to which the Agency leases its interest in the Project back to the Company, and (D) the Tax Agreement; provided, however, (i) the rental payments under the Leaseback Agreement include payments of all costs incurred by the Agency arising out of or related to the Project and indemnification of the Agency by the Company for actions taken by the Company and/or claims arising out of or related to the Project and (ii) the terms of the Tax Agreement are consistent with the Agency's Uniform Tax Exemption Policy or the procedures for deviation have been complied with.

**Section 8.** The President/CEO, Chair, Vice Chair and/or Senior Vice President of Operations of the Agency are hereby authorized, on behalf of the Agency, to execute, deliver and record the Mortgage securing an aggregate principal amount not to exceed **$2,500,000**, and any security agreement, UCC-1 Financing Statements and all documents reasonably contemplated by these resolutions or required by any lender identified by the Company (the "Lender") to assist with the undertaking of the Project, the acquisition of the Facility and/or the finance or re-finance the Facility or equipment and other personal property and related transactional costs (hereinafter, with the Project Agreement, Lease Agreement, Leaseback Agreement, Tax Agreement and the Mortgage, collectively called the "Agency Documents"); and, where appropriate, the Secretary or Assistant Secretary of the Agency is hereby authorized to affix the seal of the Agency to the Agency Documents and to attest the same, all with such changes, variations, omissions and insertions as the President/CEO, Chair, Vice Chair and/or Senior Vice President of Operations of the Agency shall approve, the execution thereof by the President/CEO, Chair, Vice Chair and/or Senior Vice President of Operations of the Agency to constitute conclusive evidence of such approval; provided in all events recourse against the Agency is limited to the Agency's interest in the Project.

**Section 9.** The Agency is hereby authorized to provide the Company with an exemption from mortgage recording taxes as permitted by New York State law in an amount not to exceed Twenty-Five Thousand and 00/100 Dollars ($25,000.00).

**Section 10.** The officers, employees and agents of the Agency are hereby authorized and directed for and in the name and on behalf of the Agency to do all acts and things required and to execute and deliver all such certificates, instruments and documents, to pay all such fees, charges and expenses and to do all such further acts and things as may be necessary or, in the
opinion of the officer, employee or agent acting, desirable and proper to effect the purposes of
the foregoing resolutions and to cause compliance by the Agency with all of the terms, covenants
and provisions of the documents executed for and on behalf of the Agency.

Mr. Suozzi,

Due to the escalating cost of building materials as well as the delay of delivery due to COVID related issues, our project at 7781 North Rd requires additional sales tax abatement. The scope and capital expenditure amount of 1.3 million for our project has not changed and we are currently on track to be under budget. The original sales tax exemption of $51,200 was based on a projected expenditure of $640,000. The increased cost of goods had led us to do majority of the labor on our own. Thus, the incremental sales tax exemption amount we are requesting is $44,800 based on a projected overall project cost of 1.2 million. We apologize our sales tax projection was off as we did not expect such increase in material costs with extreme delays. We appreciate you coming to review our progress along the way and despite the delays we are proud of the tremendous growth we are experiencing in Genesee County. The opportunity to bring additional employment and revenue to Genesee County has been nothing but a blessing to our business.

Thank you again for your continued support and understanding.

Sincerely,

Paul Wendt

WHEREAS, pursuant to resolution adopted on October 31, 2019 (the "Final Resolution"), the Agency authorized certain Financial Assistance (as defined in the Final Resolution) with respect to a certain project (the "Project") to be undertaken by KEN WENDT'S PROPANE GAS SERVICE, INC. (the "Company"), as agent of the Agency, consisting of: (i) the acquisition by the Agency of a leasehold or other interest in certain property located to the east of Route 19 on North Road, in the Town of LeRoy, Genesee County, New York (and, collectively, any lands located in Genesee County and occupied by license or easement during construction or improved by third parties for the benefit of the Project, the "Land"); (ii) the construction of an approximately 9,600 square foot building to house new smaller storage tanks to be installed at residential, commercial, industrial and agricultural customer facilities (the "Improvements"); and (iii) the acquisition by the Company in and around the Improvements of certain items of machinery, equipment and other tangible personal property, including, but not limited to, six (6) 30,000-gallon gas storage tanks (the "Equipment"); and, together with the Land and the Improvements, the "Facility"); and

WHEREAS, the Company further informed the Agency that: (i) the value of goods and services relating to the Project that will be subject to New York State and
local sales and use tax will be in an amount of up to $1,200,000.00 (such amount being an increase of $560,000.00), which will result in New York State and local sales and use tax exemption benefits not to exceed $96,000.00 (such amount being an increase of $44,800.00 and (ii) due to certain delays, is requesting an extension of the Company's right to act as agent of the Agency to December 31, 2022; and

WHEREAS, the Agency desires to adopt a resolution (i) authorizing the Company to make purchases of goods and services relating to the Project in the amount of up to $1,200,000.00, which will result in local sales and use tax exemption benefits not to exceed $96,000.00, (ii) authorizing the extension of the Company's right to act as agent of the Agency to December 31, 2022, (iii) ratifying and confirming the findings made by the Agency in the Final Resolution adopted, and (iv) if necessary, authorizing the execution and delivery of related documents.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE GENESEE COUNTY INDUSTRIAL DEVELOPMENT AGENCY D/B/A GENESEE COUNTY ECONOMIC DEVELOPMENT CENTER AS FOLLOWS:

Section 1. Based upon representations and warranties made by the Company, the Agency hereby authorizes and approves the Company, as its agent, to make purchases of goods and services relating to the Project, that would otherwise be subject to New York State and local sales and use tax in an amount up to $1,200,000.00, which result in New York State and local sales and use tax exemption benefits ("sales and use tax exemption benefits") not to exceed $96,000.00. The Agency agrees to consider any requests by the Company for increases to the amount of sales and use tax exemption benefits authorized by the Agency upon being provided with appropriate documentation detailing the additional purchases of property or services. Pursuant to Section 875(3) of the New York General Municipal Law, the Agency may recover or recapture from the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project, any sales and use tax exemption benefits taken or purported to be taken by the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project, if it is determined that: (i) the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project, is not entitled to the sales and use tax exemption benefits; (ii) the sales and use tax exemption benefits are in excess of the amounts authorized to be taken by the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project; (iii) the sales and use tax exemption benefits are for property or services not authorized by the Agency as part of the Project; or (iv) the sales and use tax exemption benefits are taken in cases where the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project, fails to comply with a material term or condition to use property or services in the manner approved by the Agency in connection with the Project. As a condition precedent of receiving sales and use tax exemption benefits, the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project, shall (i) cooperate with the Agency in its efforts to recover or recapture any sales and use tax exemption benefits, and (ii) promptly pay over any such amounts to the Agency that the Agency demands.
Section 2. The right of the Company to act as agent of the Agency shall expire on December 31, 2022.

Section 3. Unless amended by the terms hereof, Agency hereby ratifies, confirms and reaffirms the findings made in the Final Resolution and hereby re-approves the Project, as amended, and the Financial Assistance.

Section 4. The officers, employees and agents of the Agency are hereby authorized and directed for and in the name and on behalf of the Agency to do all acts and things required and to execute and deliver all such certificates, instruments and documents, to pay all such fees, charges and expenses and to do all such further acts and things as may be necessary or, in the opinion of the officer, employee or agent acting, desirable and proper to effect the purposes of the foregoing resolutions and to cause compliance by the Agency with all of the terms, covenants and provisions of the documents executed for and on behalf of the Agency.

Section 5. These Resolutions shall take effect immediately upon adoption.

The question of the adoption of the foregoing Resolution was duly put to a vote on roll call, which resulted as follows:

360 PSG – new GCEDC Website

The GCEDC has requested proposals from website design and development vendors to develop and implement a new website for the GCEDC. This project would replace the existing GCEDC.com website to better position sales and marketing information, public-facing information about the GCEDC, GCEDC projects and reports, and information about the sites and resources available in Genesee County.

Based on recommendations from partner organizations, including the GCEDC’s IT vendor (ECIDA), the GCEDC reached out to 2 vendors with experience in website design for economic development organizations as well as western New York clients with regulatory requirements.

Proposals were received from both vendors. Based on a review of the proposals received, interviews with the vendors, and recommendations from customers of the vendors, the proposal from 360 PSG of Amherst, NY is recommended for approval.

360 PSG has proposed a 1-time budget of $8,050 for the design of the website, migration of content, creative support and service time during the design process; and $975 in annual costs in subsequent years for content management system licensing, website hosting, and related ongoing support. This is within the $10,000 budgeted in the 2022 marketing budget for website design.

**Board Request:** Approval of a $8,050 professional services contract with 360 PSG for GCEDC.com website design and development.

Responsive Custom Web Design

A unique custom graphically designed theme is created for Genesee County Economic Development Center, designed to be used specifically for your website. It utilizes your brand, imagery, and creative suggestions gathered during your included consultation onboarding. This theme is 100% original and not built off of existing themes. It's handcrafted to Impress your audience from scratch. The process begins with a creative kick-off meeting to gather your key objectives and the design style that is preferred. The graphic design team at 360 PSG then crafts the custom look & feel and presents the mock-up of the main homepage for your feedback. 360 PSG will then make updates and tweak revisions to the design for subtle changes and edits before getting it cut into a working Responsive HTML/CSS design for use on the website. This is commonly referred to as a “Custom Responsive Web Design”. The finalized design files are then integrated into the content management system for content population. This theme will be used across the entire site with dynamic elements that can be changed per page or even hidden completely on others. Any amount of additional time can be added to the scope to enhance individual pages or create unique page styles within the website.
WHAT IS RESPONSIVE DESIGN?

A responsive design means that depending on the type of device the person (your visitor) is looking at the website on, it will automatically change and shift itself to best fit the content and layout for that device. This is done for large desktop monitors, smaller tablets (like iPads), and even the tiny mobile phone screens (Droids and iPhones). A responsive design removes the constant need for visitors to pinch and zoom, slide horizontally, or just squint to make out your content. The visitor does not have to do anything but visit the site at its main web address and it will shift and change automatically to present the best view for the device they are on. In today's highly mobile world, many sites are seeing upwards of 50% or more of their traffic coming from mobile and tablet devices. In fact Google has been penalizing non-responsive sites since 2016 (and rewarding those that have converted) by improving your website’s search ranking when over half your visitors perform searches on their mobile devices.

Home Page Build-Out

The homepage of a website is typically the key to successfully creating a first impression. It is with that in mind that the team at 360 PSG will take extra time to carefully craft the elements, content, and graphics that make the best first impression for your visitors. The team will utilize elements of your thematic graphic design to enhance the messaging you want to get out on the main page of your site.

WHAT'S INCLUDED?

360 PSG will populate the main homepage of the website using information provided. Images and content must be delivered digitally by the Genesee County Economic Development Center or added to the project through the purchase of stock photography and/or content writing services that are also available.

Custom graphical “calls-to-action” will be created on the homepage that are handcrafted to drive your visitor traffic to the target objectives you want them to complete (phone calls, lead forms, newsletter registrations, etc.). The home page will receive more time than the standard content population services because it must be crafted to make a lasting first impression. Actual time used will be drawn from the projects time estimate and budget.

Content Migration

With every website built, you will have the ability to log into the system and add, edit, and remove as much content as you like. With our Initial content migration service, you don’t have to spend your precious time moving your existing content to the new website. The content population specialists at 360 PSG will take any content on the pages you plan to keep and build out all of them into the new system quickly and professionally with their experience of migrating hundreds of sites before yours. Proper spacing, sizes, optimal code formats for the best search engine effectiveness, and image organization. Once populated, the keys are turned over to you and you are free to modify, add, or change things without starting from a blank slate. Content migration makes the process of launching your new site, from your old one, quick and professional but still leaves you with total control and no wasted time from your busy schedule.

WHAT'S INCLUDED?

360 PSG populates the content, images, links, and forms on internal website pages. This package excludes the homepage which requires considerably more time for execution and is populated with more detail (the home page build out is treated independent of the “internal” content pages here). 360 PSG gathers the content from the existing website for the pages that you defined you will be keeping. All new items are then linked up to the proper pages of content based on this diagram. Content is moved over as it currently exists (changes can easily be made before launch using the CMS after it has been populated but edits are not expected during the initial migration process). The amount of migration is dependent on the time allocated in your budget based on the estimates provided (individual page migration time can range from minutes to an hour or more depending on the complexity of the content on each page being moved over. This proposal reflects the estimated time and page count based on the information provided to 360 PSG during discovery).
Content Population

With every website built, you will have the ability to log into the system and add, edit, and remove as much content as you like. With our initial content population service, you don't have to spend your precious time entering it all upfront. The content population specialists at 360 PSG will take any content written for you or provided to us in digital form and build out all the pages quickly using their experience building out hundreds of previous sites.

Proper spacing, sizes, optimal code formats for the best search engine effectiveness, and image organization will be used. Once populated, the keys are turned over to you and you are free to modify, add, or change things without starting from a blank slate. Content population makes the process of launching your new site quick and professional but still leaves you with total control and no wasted time from your busy schedule.

WHAT'S INCLUDED?

360 PSG populates the content, images, links, and forms on internal website pages. This package excludes the homepage which requires considerably more time for execution and is populated with more detail (the homepage build out is treated independent of the "internal" content pages here). Genesee County Economic Development Center provides the content, images, and any desired specific direction/instruction for pages by using the 360 PSG content submissions tools or sending a single collection of word documents (or one master content document following the guidelines provided to them at the start of the project). All menu items are then linked up to the proper pages of content based on client specifications. Client must either provide a "free" organization flowchart for the content, or add one of the content information architecture packages so the team knows what pages belong where and how they relate/connect. All content must be provided prior to ANY population beginning. The number of pages included in the initial population package is described in the budget with a time estimate to complete the population. Content population is tracked hourly in 15 minute increments as complexity varies greatly between pages and client needs.

Content Self Population

If you have the time, general skill set or staff at Genesee County Economic Development Center that would prefer to take on the efforts of populating the content yourself, you will have access to all the tools and with the assistance of the help desk team you can populate as much or as little content as you need at your own pace.

Utilizing the content management system, Genesee County Economic Development Center can populate as many pages of content as they wish. The 360 PSG team does not place any content within the pages of the website itself. You are provided support, a help desk and instructions on how to use the tools to populate and edit your own content for the website with no additional cost or time spent adding pages to your website.

Service Block

Based on our experience working on hundreds of similar projects, one thing we have learned over the years is that you many not know exactly what you want until you start to see the living and breathing product you thought you did. We always recommend, with a project like yours, adding in a service block of additional "buffer" time that will cover some or all of the unforeseen ideas, scope changes, or additional time could not have been planned for out of the gate.
Service blocks are simply unallocated funds that are not attached to any one specific scope element. In your project, this flexible usage model improves the process so we can move quickly and jump any hurdles as they come up without going back through the whole scope, proposal, formal process. Adding:in this buffer means that you understand there are things you may not know you ever wanted today and that working with us on your project may drum up things like "Wouldn't it be great if we added this?" or "We just found another website that has this really awesome twist we would like" or many times "We would love to enhance what we originally planned by changing this area". Having a service block in place lets us quickly scope any potential extra time needed and you can easily approve (or decline) that estimate in a couple of emails or conversations instead of going through a formal scope adjustment and proposal process.

**Fission Content Management System**

The website will be built on the powerful content management system called Fission; built, deployed, and supported by 360 PSG. The platform was created with modern web standards and browser capabilities in mind (including search engine optimization fundamentals, mobile device views, and more). This system also includes over 100 tools, widgets, and components for you to manage your own website's content in a simple way. Grosse County Economic Development Center can log in at anytime to add content, update the site, or change information in real-time. All without having to pay each time for service charges or even have people with web design experience in house. Fission is the best option available to create a site that needs all the basics today but the capability to grow with you for years.

Features of the Fission CMS included in the standard package are:

- Add/Edit any number of content pages on the website
- Add/Edit any number or reusable content blocks throughout the website
- Add/Edit any number of news articles, announcements, and blog posts
- Add/Edit any number of testimonials, case-studies, and portfolio pieces
- Add/Edit any number of custom forms for information gathering on the website
- Add/Edit any number of images, videos, documents, and more in the media library
- Add/Edit any number of calendar events with registration options

- Add/Edit any number of icons that link to all social media accounts for a website
- Add/Edit any number of users that can log in and manage the site's content
- All content is controlled with simple to use editing tools that are similar to Microsoft Word

**SSL Certificate**

A "secure socket layer certificate" known as an SSL Certificate is a type of file holding encryption keys that is added to a server hosting your website to verify and authenticate that a website domain is actually who they say they are as well as ensuring there is valid encryption on all the data passing back and forth between your visitors and your website. When successfully installed and active your visitors will see some form of LOCK or other type of indicator in their preferred browser letting them know that the site is secure and the SSL is configured properly.

**Why Do You Need an SSL?**

- Securely encrypts data as it travels back and forth between your site and your visitors devices
- Including any credit card processing forms if you are using e-commerce
- Directly impacts how well you rank on Google
- Builds and enhances your visitor trust in your brand
- Improves conversion rates for your sales or goals as visitors are expecting encrypted transaction data

SSL Certificates are renewed annually and must be set up whenever your website moves servers or hosting providers; an expired or incorrectly configured certificate can cause major trouble when search engines or other sites create links to yours and it can be even worse if you utilize online commerce or payments on your site. It is critically important that your certificate is renewed and updated prior to its expiration date. At 360 PSG we send multiple reminders starting at 90 days prior to your expiration date to make sure it is ready to renew on time and the 360 PSG engineers handle all of the technical configuration and verification for you.
