E5) What is the planned average hourly wage for the FTE jobs to be created $0.00

E6) What is the average estimated annual salary range of FTE jobs to be created $0.00 to $0.00

E7) What is the planned average annual benefits paid in $$ per FTE job to be created $0.00

E8) Is the Project Commercial in nature (Sales Tax Generating for Community)? YES or NO No

E9) If yes, what is the estimated annual total Sales Tax to be generated from this project at full build-out?

$0.00

E10) If any, expected commencement date for Project (month/year) 10/2021

E11) Expected timeframe for Project to achieve completion (in months) 9 months

E12) Estimate of the number of residents of the Labor Market Area (as defined in N.Y. GML Sec. 859-a(4)(f)) to fill created jobs 0

Effective February 4, 2016
B) Representations by the Applicant

Is the company delinquent in the payment of any state or municipal property taxes? [ ] Yes [ ] No
Is the company delinquent in the payment of any income tax obligation? [ ] Yes [ ] No
Is the company delinquent in the payment of any loans? [ ] Yes [ ] No
Is the company currently in default on any of its loans? [ ] Yes [ ] No
Are there currently any unsatisfied judgments against the company? [ ] Yes [ ] No
Are there currently any unsatisfied judgments against any of the company's principals? [ ] Yes [ ] No
Has the company ever filed for bankruptcy? [ ] Yes [ ] No
Have any of the company's principals ever personally filed for bankruptcy, or in any way sought protection from creditors? [ ] Yes [ ] No

If the answer to any of the questions above is “Yes,” please provide additional comments in the space below and on additional pages if necessary.

________________________________________

Please initial each item where indicated

Job Listings - In accordance with Section 858-b(2) of the New York General Municipal Law, the Applicant understands and agrees that, if the Project receives any Financial Assistance from the AGENCY, except as otherwise provided by collective bargaining agreements, new employment opportunities created as a result of the Project will be listed with the New York State Department of Labor Community Services Division (the “DOL”) and with the administrative entity (collectively with the DOL, the “JTPA Entities”) of the service delivery area created by the federal job training partnership act (Public Law 97-300) (“JPTA”) in which the Project is located.

[ ] Yes Applicant's Initials

First Consideration for Employment - In accordance with Section 858-b(2) of the New York General Municipal Law, the Applicant understands and agrees that, if the Project receives any Financial Assistance from the AGENCY, except as otherwise provided by collective bargaining agreements, where practicable, the Applicant will first consider persons eligible to participate in JTPA programs who shall be referred by the JTPA Entities for new employment opportunities created as a result of the Project.

[ ] Yes Applicant's Initials

Annual Sales Tax Filings - In accordance with Section 874(8) of the General Municipal Law, the Applicant understands and agrees that, if the Project receives any sales tax exemptions as part of the Financial Assistance from the AGENCY, in accordance with Section 874(8) of the General Municipal Law, the Applicant agrees to file, or cause to be filed, with the New York State Department of Taxation and Finance, an Annual Report of Sales and Use Tax Exemptions (Form ST-340) by the last day of February following applicable calendar year (with a copy to the AGENCY), describing the value of all sales tax exemptions claimed by the Applicant and all consultants or subcontractors retained by the Applicant.

[ ] Yes Applicant's Initials

Employment Reports - The Applicant understands and agrees that, if the Project receives any Financial Assistance from the AGENCY, the Applicant agrees to file, or cause to be filed, with the AGENCY, on quarterly basis, copies of form NYS-45-MN Quarterly Combined Withholding, Wage Reporting, and Unemployment Insurance Returns filed with the Department of Labor applicable to the project site.

[ ] Yes Applicant's Initials

AGENCY Reports – The Applicant understands and agrees that, if the Project receives any Financial Assistance from the AGENCY, the Applicant agrees to file, or cause to be filed with the AGENCY, a certified Annual Project Report (to be mailed to the Applicant) due by the last day of February following applicable calendar year, for a period of time not to exceed 4 years post financial assistance.

[ ] Yes Applicant's Initials

Effective February 4, 2016
Absence of Conflicts of Interest - The Applicant has received from the AGENCY a list of the members, officers, and employees of the AGENCY. No member, officer or employee of the AGENCY has an interest, whether direct or indirect, in any transaction contemplated by this Application, except as hereinafter described:

☑️ 3. Applicant's Initials

Recapture Provision/Uniform Tax Exemption Policy ("UTEP") – Applicant hereby understands and agrees, in accordance with Section 875(3) of the New York General Municipal Law, that any New York State and local sales and use tax exemption claimed by Applicant and approved by the Agency in connection with the Project may be subject to recapture by the Agency under such terms and conditions as will be set forth in the Agent Agreement to be entered into by and between the Agency and the Applicant. Recapture provisions would be invoked under Section 875(3) of the New York General Municipal Law if it is determined that: (i) the Company is not entitled to the Sales and Use Tax Exemption Benefits; (ii) the Sales and Use Tax Exemption Benefits are in excess of the amounts authorized by the Agency to be taken by the Company; (iii) the Sales and Use Tax Exemption Benefits are for property or services not authorized by the Agency as part of the Project; or (iv) the Sales and Use Tax Exemption Benefits are taken in cases where the Company fails to comply with a material term or condition to use property or services in the manner approved by the Agency in connection with the Project. The Applicant further represents and warrants that the information contained in this Application, including without limitation information regarding the amount of New York State and local sales and use tax exemption benefits, is true, accurate and complete. The Applicant further represents and warrants that the information contained in this Application, including without limitation information regarding the amount of New York State and local sales and use tax exemption benefits, is true, accurate and complete, to the best of the Applicant’s knowledge. Applicant hereby further represents and warrants that it has reviewed the Agency’s UTEP and understands and agrees that under such UTEP, the Agency has the right to recapture all or a portion of any financial assistance provided by the Agency to the Company, including, but not limited to, sales and mortgage tax exemptions and real property tax abatements upon the occurrence of certain events as set forth in the UTEP.

☑️ 3. Applicant's Initials

No Violation of Section 862(1) of the General Municipal Law – In accordance with Section 862(1) of the General Municipal Law, the applicant understands and agrees that the Project will not (a) result in the removal of an industrial or manufacturing plant of the Project occupant from one area of the state to another area of the state, or (b) result in the abandonment of one or more plant facilities of the Project occupant located within the state. If the Project will result in (a) or (b), the applicant agrees that the requested financial assistance is necessary to prevent the Project from relocating out of the state, or is reasonably necessary to preserve the Project occupant’s competitive position in its respective industry.

☑️ 3. Applicant's Initials

Financial Assistance Necessary – The applicant represents that the project would not likely occur without the financial assistance provided by the AGENCY.

☑️ 3. Applicant's Initials

Compliance – The applicant receiving financial assistance is in substantial compliance with applicable local, state and federal tax, worker protection and environmental laws, rules and regulations.

☑️ 3. Applicant's Initials

Effective February 4, 2016
C) Signatory Page

The Applicant and the individual executing this Application on behalf of the Applicant acknowledge that:

A) The AGENCY will rely on the representations made herein when acting on this Application and hereby represent that the statements made herein do not contain any untrue statement of a material fact and do not omit to state a material fact necessary to make the statements contained herein not misleading.

B) Failure of the Applicant to file appropriate Sales Tax and Employment reports will result in the revocation of tax benefits and require repayment of benefits previously claimed.

C) If the Applicant submits knowingly false or knowingly misleading information this may lead to the immediate termination of any financial assistance and the reimbursement of an amount equal to all or part of any tax exemptions claimed by reason of the AGENCY's involvement in the Project and may also lead to potential criminal penalties and/or civil liabilities for perjury.

This Application should be submitted along with the items listed in Exhibit A to:

Genesee County Economic Development Center
99 MedTech Drive, Suite 106
Batavia, New York 14020
(Attn: President & Chief Executive Officer)

Effective February 4, 2016
D) Hold Harmless Agreement

Applicant hereby releases Genesee County Economic Development Center and the members, officers, servants, agents and employees thereof (the "AGENCY") from, agrees that the AGENCY shall not be liable for and agrees to indemnify, defend and hold the AGENCY harmless from and against any and all liability arising from or expense incurred by (A) the AGENCY's examination and processing of, and action pursuant to or upon, the attached Application, regardless of whether or not the Application or the Project described therein or the tax exemptions and other assistance requested therein are favorably acted upon by the AGENCY, (B) the AGENCY's acquisition, construction and/ or installation of the Project described therein and (C) any further action taken by the AGENCY with respect to the Project; including without limiting the generality of the foregoing, all causes of action and attorneys' fees and any other expenses incurred in defending any suits or actions which may arise as a result of any of the foregoing. If, for any reason, the Applicant fails to conclude or consummate necessary negotiations, or fails, within a reasonable or specified period of time, to take reasonable, proper or requested action, or withdraws, abandons, cancels or neglects the Application, or if the AGENCY or the Applicant are unable to reach final agreement with the respect to the Project, then, and in the event, upon presentation of an invoice itemizing the same, the Applicant shall pay to the AGENCY, its agents or assigns, all costs incurred by the AGENCY in the processing of the Application, including attorneys' fees, if any.

Applicant hereby understands and agrees, in accordance with Section 875(3) of the New York General Municipal Law, that any New York State and local sales and use tax exemption claimed by Applicant and approved by the Agency in connection with the Project may be subject to recapture by the Agency under such terms and conditions as will be set forth in the agreements to be entered into by and between the Agency and the Applicant. The Applicant further represents and warrants that the information contained in this Application, including without limitation information regarding the amount of New York State and local sales and use tax exemption benefits, is true, accurate and complete.

INSURANCE COVERAGE

1. Requirements. The Company shall maintain or cause to be maintained insurance against such risks and for such amounts as are customarily insured against by businesses of like size and type paying, as the same become due and payable, all premiums in respect thereto, including, but not necessarily limited to:

   (a) (i) Insurance against loss or damage by fire, lightning and other casualties, with a uniform standard extended coverage endorsement, such insurance to be in an amount not less than the full replacement value of the Project, exclusive of excavations and foundations, as determined by a recognized appraiser or insurer selected by the Company or (ii) as an alternative to the above requirements (including the requirement of periodic appraisal), the Company may insure the Project under a blanket insurance policy or policies covering not only the Project but other properties as well.

   (b) Workers' compensation insurance, disability benefits insurance, and each other form of insurance which the Agency or the Company is required by law to provide, covering loss resulting from injury, sickness, disability or death of employees of the Company who are located at or assigned to the Project.

   (c) Insurance against loss or losses from liabilities imposed by law or assumed in any written contract and arising from personal injury and death or damage to the property of others caused by any accident or occurrence, with limits of not less than $1,000,000 per accident or occurrence on account of personal injury, including death resulting there from, and $1,000,000 per accident or occurrence on account of damage to the property of others, excluding liability imposed upon the Company by any applicable workers' compensation law, and a blanket excess liability policy in the amount not less than $3,000,000, protecting the Company against any loss or liability or damage for personal injury or property damage.

2. Additional Provisions Respecting Insurance. (a) All insurance required shall name the Agency as a named insured and all other insurance required by Section 4 hereof shall name the Agency as an additional insured. All insurance shall be procured and maintained in financially sound and generally recognized responsible insurance companies selected by the Company and authorized to write such insurance in the State. Such insurance may be written with deductible amounts comparable to those on similar policies carried by other companies engaged in businesses similar in size, character and other respects to those in which the Company is engaged. All policies evidencing such insurance shall provide for (i) payment of the losses of the Company and the Agency as their respective interest may appear, and (ii) at least thirty (30) days' prior written notice of the cancellation thereof to the Company and the Agency.

   (b) All such policies of insurance, or a certificate or certificates of the insurers that such insurance is in force and effect, shall be deposited with the Agency on the date hereof. Prior to expiration of any such policy, the Company shall furnish the Agency evidence that the policy has been renewed or replaced or is no longer required by this Agent Agreement.

Effective February 4, 2016
Exhibit B

To be completed / calculated by AGENCY

Type of Project: ☑ Attraction ☐ Expansion ☐ Retention
☐ Infrastructure ☐ Workforce

Offerings: ☑ SLB ☐ Bond ☐ Grant ☐ Consulting

Estimated Financial Assistance to be provided via AGENCY participation – subject to AGENCY Board Approval

1) Estimated Sales Tax Exemption (8%)
2) Estimated Mortgage Tax Exemption (1%)
3) Estimated Property Tax Abatement
4) Estimated Total Tax Savings (1+2+3):
5) Estimated Tax-Exempt Interest Cost Savings (via Tax-Exempt Bond)
6) Grant
   Type or name of grant ( )
7) Estimated total Company Savings (4+5+6):
8) Benefited Project Amount
   (the capital investment directly related to the benefits received)
9) Bond Amount
10) Mortgage Amount
11) GCEDC/GGLDC Revolving Loan Fund
12) Loan Secured
   Source of loan ( )
13) Total Amount Financed / Loan Funds Secured
   (Sum of lines 9-12)

Proposed PILOT structure:
15 Year Fixed 600,000 with 2% escalation

* Estimated Value of Goods and Services to be exempt from sales and use tax as a result of the Agency's involvement in the Project. PLEASE NOTE: These amounts will be verified and there is a potential for a recapture of sales tax exemptions (see "Recapture Provision" on page 7).

$ 7,802,556 (to be used on the NYS ST-60)

Fees to be Paid by the Applicant:

Effective February 4, 2016
Genesee County Economic Development Center $97,532 (Per the attached Pricing & Fee Policy) the AGENCY will collect a 1.25% fee. The AGENCY will collect its participation fee at the time of closing, based upon the company provided realistic capital investment costs of this project stated in this application. (Should the actual costs exceed those estimated, an additional fee will apply.) In addition, the Applicant will reimburse the Agency for any direct expenses incurred in connection with this Project, including costs related to holding a public hearing.

The AGENCY will collect an annual administration fee. Projects with a capital investment of less than $5 million will be charged a $500 annual fee for each year of benefits provided. For projects with a capital investment of $5 million or greater, there will be a $1,000 annual fee charged.

Harris Beach, LLP $12,500 (Estimated fee for legal services required in connection with the financial assistance provided by the Genesee County Economic Development Center). Applicant may be required to pay additional out-of-pocket expenses and applicable filing or recording fees.

"Financial incentives are public information and will be released to the media upon board approval"

GCEOC $97,532
Workforce/Economic Development $25,000
Hammel $72,500
TOTAL $135,032

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either “Yes” or “No”. If the answer to the initial question is “Yes”, complete the sub-questions that follow. If the answer to the initial question is “No”, proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

<td>Cypress Creek Renewables, LLC is proposing to construct an approximately 5,000 kW (AC) solar photovoltaic array system on a portion of the site described above and illustrated on the attached map. The project will consist of ground-mounted solar photovoltaic panels. The construction of the system will involve driving posts approximately 8-10' into the ground, or at depths appropriate for frost conditions, every 12-16' and mounting panels racks to the posts. The solar farm will operate as a Community Distributed Generation (CDG) facility as prescribed by the New York State Public Service Commission under the electric tariffs of National Grid Electric. As a CDG facility, the project will provide clean energy to the existing electric grid operated by National Grid Electric and offer local customers the opportunity to contract for this energy at or below current market rates.</td>

- If No, proceed to question C.2 and complete all remaining sections and questions in Part I

**C.2. Adopted land use plans.**

a. Do any municipally-adopted (city, town, village or county) comprehensive land use plan(s) include the site where the proposed action would be located? ☑ Yes ☐ No

If Yes, does the comprehensive plan include specific recommendations for the site where the proposed action would be located? ☑ Yes ☐ No

b. Is the site of the proposed action within any local or regional special planning district (for example: Greenway; Brownfield Opportunity Area (BOA); designated State or Federal heritage area; watershed management plan; or other)?

If Yes, identify the plan(s):

   |

   |

c. Is the proposed action located wholly or partially within an area listed in an adopted municipal open space plan, or an adopted municipal farmland protection plan? ☑ Yes ☐ No

If Yes, identify the plan(s):

| Town of Batavia Agricultural & Farmland Protection Plan; Genesee County Agricultural and Farmland Protection Plan |
C.3. Zoning

a. Is the site of the proposed action located in a municipality with an adopted zoning law or ordinance. [Yes No] Agricultural-Residential (A-R)

b. Is the use permitted or allowed by a special or conditional use permit? [Yes No]

c. Is a zoning change requested as part of the proposed action? [Yes No]
   i. What is the proposed new zoning for the site?

C.4. Existing community services.

a. In what school district is the project site located? Batavia City School District

b. What police or other public protection forces serve the project site?
   Batavia Police Department; Genesee County Sheriff; NY State Police

c. Which fire protection and emergency medical services serve the project site?
   Town of Batavia Fire Department

d. What parks serve the project site?
   Kiwanis Park, Batavia Town Park, Batavia Soccer Park

D. Project Details

D.1. Proposed and Potential Development

a. What is the general nature of the proposed action (e.g., residential, industrial, commercial, recreational; if mixed, include all components)? Solar electric generation (commercial)

b. a. Total acreage of the site of the proposed action? 64.4 acres
   b. Total acreage to be physically disturbed? +/- 35.89 acres
   c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? +/- 135 acres

c. Is the proposed action an expansion of an existing project or use? [Yes No]
   i. If Yes, what is the approximate percentage of the proposed expansion and identify the units (e.g., acres, miles, housing units, square feet)? % Units:

d. Is the proposed action a subdivision, or does it include a subdivision? [Yes No]
   If Yes,
   i. Purpose or type of subdivision? (e.g., residential, industrial, commercial; if mixed, specify types)

   ii. Is a cluster/conservation layout proposed? [Yes No]
   iii. Number of lots proposed?
   iv. Minimum and maximum proposed lot sizes? Minimum Maximum

e. Will the proposed action be constructed in multiple phases? [Yes No]
   i. If No, anticipated period of construction: 12-16 weeks
   ii. If Yes:
      • Total number of phases anticipated
      • Anticipated commencement date of phase 1 (including demolition) _______ month _______ year
      • Anticipated completion date of final phase _______ month _______ year
      • Generally describe connections or relationships among phases, including any contingencies where progress of one phase may determine timing or duration of future phases:
f. Does the project include new residential uses?  
   If Yes, show numbers of units proposed. 

<table>

   Initial Phase: 
   At completion of all phases: 

   g. Does the proposed action include new non-residential construction (including expansions)?  
   If Yes, 
   i. Total number of structures: N/A
   ii. Dimensions (in feet) of largest proposed structure: N/A height; N/A width; and N/A length
   iii. Approximate extent of building space to be heated or cooled: N/A square feet

   h. Does the proposed action include construction or other activities that will result in the impoundment of any liquids, such as creation of a water supply, reservoir, pond, lake, waste lagoon or other storage?  
   If Yes, 
   i. Purpose of the impoundment: 
   ii. If a water impoundment, the principal source of the water: [ ] Ground water [ ] Surface water streams [ ] Other specify:
   iii. If other than water, identify the type of impounded/contained liquids and their source.
   iv. Approximate size of the proposed impoundment. Volume: ________ million gallons; surface area: ________ acres
   v. Dimensions of the proposed dam or impounding structure: ________ height; ________ length
   vi. Construction method/materials for the proposed dam or impounding structure (e.g., earth fill, rock, wood, concrete):

D.2. Project Operations

a. Does the proposed action include any excavation, mining, or dredging, during construction, operations, or both?  
   (Not including general site preparation, grading or installation of utilities or foundations where all excavated materials will remain onsite)
   If Yes: 
   i. What is the purpose of the excavation or dredging?
   ii. How much material (including rock, earth, sediments, etc.) is proposed to be removed from the site?
      • Volume (specify tons or cubic yards):
      • Over what duration of time?
   iii. Describe nature and characteristics of materials to be excavated or dredged, and plans to use, manage or dispose of them.
      
   iv. Will there be onsite dewatering or processing of excavated materials?  
      If yes, describe.

   v. What is the total area to be dredged or excavated? ________ acres
   vi. What is the maximum area to be worked at any one time? ________ acres
   vii. What would be the maximum depth of excavation or dredging? ________ feet
   viii. Will the excavation require blasting?
   ix. Summarize site reclamation goals and plan:

b. Would the proposed action cause or result in alteration of, increase or decrease in size of, or encroachment into any existing wetland, waterbody, shoreline, beach or adjacent area?  
   If Yes:
   i. Identify the wetland or waterbody which would be affected (by name, water index number, wetland map number or geographic description):

<table>
<thead>
<tr>

Page 5 of 13
iv. Will a new wastewater (sewage) treatment district be formed to serve the project site?  
   If Yes:
   • Applicant/sponsor for new district:
   • Date application submitted or anticipated:
   • What is the receiving water for the wastewater discharge?

v. If public facilities will not be used, describe plans to provide wastewater treatment for the project, including specifying proposed receiving water (name and classification if surface discharge or describe subsurface disposal plans):

vi. Describe any plans or designs to capture, recycle or reuse liquid waste:

e. Will the proposed action disturb more than one acre and create stormwater runoff, either from new point sources (i.e., ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point source (i.e., sheet flow) during construction or post construction?  
   If Yes:
   i. How much impervious surface will the project create in relation to total size of project parcel?  
      _______ Square feet or _______ acres (impervious surface)
      _______ Square feet or _______ acres (parcel size)
   ii. Describe types of new point sources.  No new point source discharges; sheet flow only

iii. Where will the stormwater runoff be directed (i.e., on-site stormwater management facility/structures, adjacent properties, groundwater, on-site surface water or off-site surface waters)?

Stormwater will flow off parcel to ground and drain as normal to surface water around the site. Appropriate stormwater management controls will be implemented during construction.

   • If to surface waters, identify receiving water bodies or wetlands:
     See attached Wetland Delineation Report for Trousdale Solar, LLC
   • Will stormwater runoff flow to adjacent properties?  Off-site drainage patterns will remain the same.

iv. Does the proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater?  

f. Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel combustion, waste incineration, or other processes or operations?  

If Yes, identify:
   i. Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles)
   Heavy equipment during construction only
   ii. Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers)
   N/A
   iii. Stationary sources during operations (e.g., process emissions, large boilers, electric generation)
   N/A

g. Will any air emission sources named in D.2.f (above), require a NY State Air Registration, Air Facility Permit, or Federal Clean Air Act Title IV or Title V Permit?  

If Yes:
   i. Is the project site located in an Air quality non-attainment area?  (Area routinely or periodically fails to meet ambient air quality standards for all or some parts of the year)
   ii. In addition to emissions as calculated in the application, the project will generate:
      • _______ Tons/year (short tons) of Carbon Dioxide (CO₂)
      • _______ Tons/year (short tons) of Nitrous Oxide (N₂O)
      • _______ Tons/year (short tons) of Perfluorocarbons (PFCs)
      • _______ Tons/year (short tons) of Sulfur Hexafluoride (SF₆)
      • _______ Tons/year (short tons) of Carbon Dioxide equivalent of Hydrofluorocarbons (HFCs)
      • _______ Tons/year (short tons) of Hazardous Air Pollutants (HAPs)
h. Will the proposed action generate or emit methane (including, but not limited to, sewage treatment plants, landfills, composting facilities)?
   - Yes ☑️ No ☐
   i. Estimate methane generation in tons/year (metric):
   ii. Describe any methane capture, control or elimination measures included in project design (e.g., combustion to generate heat or electricity, flaring):

i. Will the proposed action result in the release of air pollutants from open-air operations or processes, such as quarry or landfill operations?
   - Yes ☐ No ☑️
   If Yes: Describe operations and nature of emissions (e.g., diesel exhaust, rock particulates/dust):

j. Will the proposed action result in a substantial increase in traffic above present levels or generate substantial new demand for transportation facilities or services?
   - Yes ☐ No ☑️
   i. When is the peak traffic expected (Check all that apply):
      - Morning ☐
      - Evening ☐
      - Weekend ☑️
      - Randomly between hours of ___________ to ______________
   ii. For commercial activities only, projected number of truck trips/day and type (e.g., semi trailers and dump trucks):

iii. Parking spaces: Existing ______ Proposed ______ Net increase/decrease ______

iv. Does the proposed action include any shared use parking?
   - Yes ☐ No ☑️

v. If the proposed action includes any modification of existing roads, creation of new roads or change in existing access, describe:

vi. Are public/private transportation service(s) or facilities available within ½ mile of the proposed site?
   - Yes ☐ No ☑️

vii. Will the proposed action include access to public transportation or accommodations for use of hybrid, electric or other alternative fueled vehicles?
   - Yes ☐ No ☑️

viii. Will the proposed action include plans for pedestrian or bicycle accommodations for connections to existing pedestrian or bicycle routes?
   - Yes ☐ No ☑️

k. Will the proposed action (for commercial or industrial projects only) generate new or additional demand for energy?
   - Yes ☐ No ☑️
   i. Estimate annual electricity demand during operation of the proposed action:

   ii. Anticipated sources/suppliers of electricity for the project (e.g., on-site combustion, on-site renewable, via grid/local utility, or other):

   iii. Will the proposed action require a new, or an upgrade, to an existing substation?
   - Yes ☐ No ☑️

I. Hours of operation. Answer all items which apply.
   i. During Construction:
      - Monday - Friday: 7 am - 7 pm
      - Saturday: N/A
      - Sunday: N/A
      - Holidays: N/A

   ii. During Operations:
      - Monday - Friday: 24/7
      - Saturday: 24/7
      - Sunday: 24/7
      - Holidays: 24/7
m. Will the proposed action produce noise that will exceed existing ambient noise levels during construction, operation, or both? ☑ Yes ☐ No

If yes:

i. Provide details including sources, time of day and duration:
Noise levels will only exceed ambient levels during construction (12-16 weeks) from use of heavy equipment, including hydraulic pile drivers, excavators, telescopic forklifts, and skid steer loaders. During operation, inverters produce low level noise that will not exceed ambient levels outside the fence line.

ii. Will the proposed action remove existing natural barriers that could act as a noise barrier or screen? ☑ Yes ☐ No
Describe: Approximately 3.31 acres of tree removal will occur within the array location to prevent shading; however, the majority of forested barriers on the Project Site will remain.

n. Will the proposed action have outdoor lighting? ☐ Yes ☑ No

If yes:

i. Describe source(s), location(s), height of fixture(s), direction/aim, and proximity to nearest occupied structures:

ii. Will proposed action remove existing natural barriers that could act as a light barrier or screen?
Describe:

o. Does the proposed action have the potential to produce odors for more than one hour per day? ☐ Yes ☑ No

If Yes, describe possible sources, potential frequency and duration of odor emissions, and proximity to nearest occupied structures:

p. Will the proposed action include any bulk storage of petroleum (combined capacity of over 1,100 gallons) or chemical products 185 gallons in above ground storage or any amount in underground storage? ☐ Yes ☑ No

If Yes:

i. Product(s) to be stored

ii. Volume(s) per unit time (e.g., month, year)

iii. Generally, describe the proposed storage facilities:

q. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation? ☑ Yes ☐ No

If Yes:

i. Describe proposed treatment(s):
During construction, as a pre-requisite to pollinator establishment, herbicides will be applied prior to pollinator habitat prep. This will occur while storm water measures are in place controlling offsite sediment exposure. During facility operation, herbicides may be utilized for vegetation management. Under circumstances where herbicides are deemed necessary, an effort is made to minimize use and to only apply highly bio-degradable, EPA registered and approved solutions that are nontoxic to pets and wildlife.

ii. Will the proposed action use Integrated Pest Management Practices? ☑ Yes ☐ No

r. Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)? ☑ Yes ☐ No

If Yes:

i. Describe any solid waste(s) to be generated during construction or operation of the facility:
- Construction: ___________ tons per ___________ (unit of time)
- Operation: ___________ tons per ___________ (unit of time)

ii. Describe any proposals for on-site minimization, recycling or reuse of materials to avoid disposal as solid waste:

- Construction:

- Operation:

iii. Proposed disposal methods/facilities for solid waste generated on-site:

- Construction:

- Operation:
s. Does the proposed action include construction or modification of a solid waste management facility?  □ Yes  ☑ No

If Yes:

i. Type of management or handling of waste proposed for the site (e.g., recycling or transfer station, composting, landfill, or other disposal activities):

ii. Anticipated rate of disposal/processing:
   • ______ Tons/month, if transfer or other non-combustion/thermal treatment, or
   • ______ Tons/hour, if combustion or thermal treatment

iii. If landfill, anticipated site life: __________________________ years

t. Will the proposed action at the site involve the commercial generation, treatment, storage, or disposal of hazardous waste?  □ Yes  □ No

If Yes:

i. Name(s) of all hazardous wastes or constituents to be generated, handled or managed at facility:

ii. Generally describe processes or activities involving hazardous wastes or constituents:

iii. Specify amount to be handled or generated ______ tons/month

iv. Describe any proposals for on-site minimization, recycling or reuse of hazardous constituents:

v. Will any hazardous wastes be disposed at an existing offsite hazardous waste facility?  □ Yes  □ No

If Yes: provide name and location of facility:

If No: describe proposed management of any hazardous wastes which will not be sent to a hazardous waste facility:

E. Site and Setting of Proposed Action

E.1. Land uses on and surrounding the project site

a. Existing land uses.
   i. Check all uses that occur on, adjoining and near the project site.
   □ Urban  □ Industrial  □ Commercial  ☑ Residential (suburban)  □ Rural (non-farm)
   □ Forest  ☑ Agriculture  □ Aquatic  □ Other (specify):

   ii. If mix of uses, generally describe:

b. Land uses and covetypes on the project site.

c. Is the project site presently used by members of the community for public recreation? ☐ Yes ☑ No

i. If Yes: explain:

d. Are there any facilities serving children, the elderly, people with disabilities (e.g., schools, hospitals, licensed day care centers, or group homes) within 1500 feet of the project site? ☐ Yes ☑ No

i. Identify Facilities:

e. Does the project site contain an existing dam? ☐ Yes ☑ No

i. Dimensions of the dam and impoundment:

• Dam height: ____________________________ feet
• Dam length: ____________________________ feet
• Surface area: ____________________________ acres
• Volume impounded: ____________________________ gallons OR acre-feet

ii. Dam’s existing hazard classification:

iii. Provide date and summarize results of last inspection:

f. Has the project site ever been used as a municipal, commercial or industrial solid waste management facility, or does the project site adjoin property which is now, or was at one time, used as a solid waste management facility? ☐ Yes ☑ No

i. Has the facility been formally closed? ☐ Yes ☑ No

• If yes, cite sources/documentation:

ii. Describe the location of the project site relative to the boundaries of the solid waste management facility:

iii. Describe any development constraints due to the prior solid waste activities:

g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste? ☐ Yes ☑ No

i. Describe waste(s) handled and waste management activities, including approximate time when activities occurred:

h. Potential contamination history. Has there been a reported spill at the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site? ☐ Yes ☑ No

i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply:

☐ Yes – Spills Incidents database
☐ Yes – Environmental Site Remediation database
☐ Neither database

Provide DEC ID number(s):

ii. If site has been subject of RCRA corrective activities, describe control measures:

iii. Is the project within 2000 feet of any site in the NYSDEC Environmental Site Remediation database? ☐ Yes ☑ No

If yes, provide DEC ID number(s):

iv. If yes to (i), (ii) or (iii) above, describe current status of site(s):

Page 10 of 13
v. Is the project site subject to an institutional control limiting property uses? □ Yes □ No
- If yes, DEC site ID number:
- Describe the type of institutional control (e.g., deed restriction or easement):
- Describe any use limitations:
- Describe any engineering controls:
- Will the project affect the institutional or engineering controls in place? □ Yes □ No
- Explain:

E.2. Natural Resources On or Near Project Site

a. What is the average depth to bedrock on the project site? Approx. 5.75 feet

b. Are there bedrock outcroppings on the project site? □ Yes □ No
If Yes, what proportion of the site is comprised of bedrock outcroppings? %

c. Predominant soil type(s) present on project site:
   - Ontario loam 80.7%
   - Benson soils  8.7%
   - Aurora silt loam  4.6%

d. What is the average depth to the water table on the project site? Average: 6.2 feet

e. Drainage status of project site soils:
   - ☑ Well Drained: 93.4% of site
   - ☑ Moderately Well Drained: 4.8% of site
   - ☑ Poorly Drained: 1.7% of site

f. Approximate proportion of proposed action site with slopes:
   - 0-10%: 92% of site
   - 10-15%:  6.3% of site
   - 15% or greater: 1.7% of site

g. Are there any unique geologic features on the project site? □ Yes □ No
If Yes, describe:

h. Surface water features.
   i. Does any portion of the project site contain wetlands or other waterbodies (including streams, rivers, ponds or lakes)? □ Yes □ No
   ii. Do any wetlands or other waterbodies adjoin the project site? Yes No
      If Yes to either i or ii, continue. If No, skip to E.2.i.
   iii. Are any of the wetlands or waterbodies within or adjoining the project site regulated by any federal, state or local agency? □ Yes □ No

iv. For each identified regulated wetland and waterbody on the project site, provide the following information:
   - Streams: Name __________________________ Classification ________________
   - Lakes or Ponds: Name __________________________ Classification ________________
   - Wetlands: Name __________________________ Approximate Size ________________

v. Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired waterbodies? □ Yes □ No
If yes, name of impaired water body/bodies and basis for listing as impaired:

i. Is the project site in a designated Floodway? □ Yes □ No

j. Is the project site in the 100-year Floodplain? □ Yes □ No

k. Is the project site in the 500-year Floodplain? □ Yes □ No

l. Is the project site located over, or immediately adjoining, a primary, principal or sole source aquifer? □ Yes □ No
   If Yes:
   i. Name of aquifer: Principal Aquifer, Primary Aquifer
n. Does the project site contain a designated significant natural community?  
   □ Yes ☑ No
   i. Describe the habitat/community (composition, function, and basis for designation):
   ii. Source(s) of description or evaluation:
   iii. Extent of community/habitat:
      - Currently: ____________________ acres
      - Following completion of project as proposed: ____________________ acres
      - Gain or loss (indicate + or -): ____________________ acres

o. Does project site contain any species of plant or animal that is listed by the federal government or NYS as endangered or threatened, or does it contain any areas identified as habitat for an endangered or threatened species?  
   □ Yes ☑ No
   i. Species and listing (endangered or threatened):
      See attached Section F Letter.

p. Does the project site contain any species of plant or animal that is listed by NYS as rare, or as a species of special concern?  
   □ Yes ☑ No
   i. Species and listing:

q. Is the project site or adjoining area currently used for hunting, trapping, fishing or shell fishing?  
   □ Yes ☑ No
   If yes, give a brief description of how the proposed action may affect that use:
   Hunting and trapping will not be allowed within the fenced area of the projects due to safety and operation concerns.

E.3. Designated Public Resources On or Near Project Site
   a. Is the project site, or any portion of it, located in a designated agricultural district certified pursuant to Agriculture and Markets Law, Article 25-AA, Section 303 and 304?  
      □ Yes ☑ No
   If Yes, provide county plus district name/number: GENE001

   b. Are agricultural lands consisting of highly productive soils present?  
      □ Yes ☑ No
      i. If Yes: acreage(s) on project site? Approximately 55 acres
      ii. Source(s) of soil rating(s): USDA NRCS Web Soil Survey

   c. Does the project site contain all or part of, or is it substantially contiguous to, a registered National Natural Landmark?  
      □ Yes ☑ No
      i. Nature of the natural landmark: □ Biological Community □ Geological Feature
      ii. Provide brief description of landmark, including values behind designation and approximate size/extent:
          ___________________________________________________________
          ___________________________________________________________

   d. Is the project site located in or does it adjoin a state listed Critical Environmental Area?  
      □ Yes ☑ No
      i. CEA name: 
      ii. Basis for designation:
      iii. Designating agency and date: 

e. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places?
   - Yes ☑ No ☐
   If Yes:
   i. Nature of historic/archaeological resource: ☐ Archaeological Site ☐ Historic Building or District
   ii. Name: 
   iii. Brief description of attributes on which listing is based: 

f. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?
   - Yes ☑ No ☐

g. Have additional archaeological or historic site(s) or resources been identified on the project site?
   - Yes ☐ No ☑
   If Yes:
   i. Describe possible resource(s): 
   ii. Basis for identification: 

h. Is the project site within five miles of any officially designated and publicly accessible federal, state, or local scenic or aesthetic resource?
   - Yes ☐ No ☑
   If Yes:
   i. Identify resource: 
   ii. Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic trail or scenic byway, etc.): 
   iii. Distance between project and resource: miles.

i. Is the project site located within a designated river corridor under the Wild, Scenic and Recreational Rivers Program 6 NYCRR 666?
   - Yes ☑ No ☐
   If Yes:
   i. Identify the name of the river and its designation: 
   ii. Is the activity consistent with development restrictions contained in 6 NYCRR Part 666?
      - Yes ☐ No ☑

F. Additional Information
Attach any additional information which may be needed to clarify your project.

If you have identified any adverse impacts which could be associated with your proposal, please describe those impacts plus any measures which you propose to avoid or minimize them.

*See attached Section F Letter.*

G. Verification
I certify that the information provided is true to the best of my knowledge.

Matthew Bowers

Section F.1
Changes made to FEAF based on errors with the EAF mapper
- Section E.2.o indicated No to federally listed species in the vicinity of the project; However, based on the preliminary results discussed below, the answer has been revised to Yes.

Section F.2
Status of agency consultations
Federally Listed Threatened and Endangered Species
- Cypress Creek Renewables (CCR) completed the U.S. Fish and Wildlife Service (USFWS) New York’s Field Office’s online project review process on April 9, 2018. Northern Long-eared bat (NLEB) does have the potential to utilize the site for foraging and roosting; however, project activities (including tree removal) that could result in incidental take of NLEB are not prohibited under the Endangered Species Act per the final 4(d) rule for the species as the project is not located within 150 feet of a known roost tree and/or ¼ mile of a known hibernacula. These findings will be submitted to USFWS in pursuit of a “no effect” concurrence for federally protected species.

State-Listed Threatened and Endangered Species
- The New York State Department of Environmental Conservation (NYSDEC) Environmental Resource Mapper dated April 9, 2018 shows the absence of state listed species in the vicinity of the project.

Cultural Resources
- New York State Office of Parks, Recreation, and Historic Preservation (SHPO) consultation will be initiated in pursuit of a “no effect” concurrence for impact to archaeological and/or historic structures.

Wetland and Water Resources
- Kleinfelder performed a wetland and waterbody delineation on May 31, 2018 at the Project Site. Based on the current project design, impacts to jurisdictional features are not anticipated, and no permits will be required.

Disclaimer: The EAF Mapper is a screening tool intended to assist project sponsors and reviewing agencies in preparing an environmental assessment form (EAF). Not all questions asked in the EAF are answered by the EAF Mapper. Additional information on any EAF question can be obtained by consulting the EAF Workbooks. Although the EAF Mapper provides the most up-to-date digital data available to DEC, you may also need to contact local or other data sources in order to obtain data not provided by the Mapper. Digital data is not a substitute for agency determinations.

April 09, 2018

Subject: List of threatened and endangered species that may occur in your proposed project location, and/or may be affected by your proposed project

To Whom It May Concern:

The enclosed species list identifies threatened, endangered, proposed and candidate species, as well as proposed and final designated critical habitat, that may occur within the boundary of your proposed project and/or may be affected by your proposed project. The species list fulfills the requirements of the U.S. Fish and Wildlife Service (Service) under section 7(c) of the Endangered Species Act (ESA) of 1973, as amended (16 U.S.C. 1531 et seq.). This list can also be used to determine whether listed species may be present for projects without federal agency involvement. New information based on updated surveys, changes in the abundance and distribution of species, changed habitat conditions, or other factors could change this list.

Please feel free to contact us if you need more current information or assistance regarding the potential impacts to federally proposed, listed, and candidate species and federally designated and proposed critical habitat. Please note that under 50 CFR 402.12(e) of the regulations implementing section 7 of the ESA, the accuracy of this species list should be verified after 90 days. This verification can be completed formally or informally as desired. The Service recommends that verification be completed by visiting the ECOS-IPaC site at regular intervals during project planning and implementation for updates to species lists and information. An updated list may be requested through the ECOS-IPaC system by completing the same process used to receive the enclosed list. If listed, proposed, or candidate species were identified as potentially occurring in the project area, coordination with our office is encouraged. Information on the steps involved with assessing potential impacts from projects can be found at: http://www.fws.gov/northeast/nyfo/es/section7.htm

Please be aware that bald and golden eagles are protected under the Bald and Golden Eagle Protection Act (16 U.S.C. 668 et seq.), and projects affecting these species may require development of an eagle conservation plan (http://www.fws.gov/windenergy/)
Additionally, wind energy projects should follow the Services wind energy guidelines [http://www.fws.gov/windenergy/] for minimizing impacts to migratory birds and bats.

We appreciate your concern for threatened and endangered species. The Service encourages Federal agencies to include conservation of threatened and endangered species into their project planning to further the purposes of the ESA. Please include the Consultation Tracking Number in the header of this letter with any request for consultation or correspondence about your project that you submit to our office.

Attachment(s):

- Official Species List
Official Species List

This list is provided pursuant to Section 7 of the Endangered Species Act, and fulfills the requirement for Federal agencies to "request of the Secretary of the Interior information whether any species which is listed or proposed to be listed may be present in the area of a proposed action".

This species list is provided by:

New York Ecological Services Field Office

Project Summary

Consultation Code: 05E1NY00-2018-SLI-1703

Event Code: 05E1NY00-2018-E-05209

Project Name: Trousdale Solar, LLC

Project Type: POWER GENERATION

Project Description: Cypress Creek Renewables, LLC, CCR, proposes the installation of a ground-mounted solar system, the Project, on a portion of the Trousdale Solar, LLC Site, the Project Site. The Project is located at 5117 Ellicott Street Road, Town of Batavia, Genesee County, NY.

Project Location:
Approximate location of the project can be viewed in Google Maps: https://www.google.com/maps/place/42.9711459687292N78.14228814548868W

Counties: Genesee, NY
Endangered Species Act Species

There is a total of 1 threatened, endangered, or candidate species on this species list.

Species on this list should be considered in an effects analysis for your project and could include species that exist in another geographic area. For example, certain fish may appear on the species list because a project could affect downstream species.

IPaC does not display listed species or critical habitats under the sole jurisdiction of NOAA Fisheries\(^1\), as USFWS does not have the authority to speak on behalf of NOAA and the Department of Commerce.

See the "Critical habitats" section below for those critical habitats that lie wholly or partially within your project area under this office's jurisdiction. Please contact the designated FWS office if you have questions.

1. NOAA Fisheries, also known as the National Marine Fisheries Service (NMFS), is an office of the National Oceanic and Atmospheric Administration within the Department of Commerce.

**USGS Quad:** BATAVIA SOUTH

**DEC Region**

**Region 8:**
(Western Finger Lakes) Chemung, Genesee, Livingston, Monroe, Ontario, Orleans, Schuyler, Seneca, Steuben, Wayne and Yates counties. For more information visit [http://www.dec.ny.gov/about/617.html](http://www.dec.ny.gov/about/617.html).

If your project or action is within or near an area with a rare animal, a permit may be required if the species is listed as endangered or threatened and the department determines the action may be harmful to the species or its habitat.

If your project or action is within or near an area with rare plants and/or significant natural communities, the environmental impacts may need to be addressed.

The presence of a unique geological feature or landform near a project, unto itself, does not trigger a requirement for a NYS DEC permit. Readers are advised, however, that there is the chance that a unique feature may also show in another data layer (i.e. a wetland) and thus be subject to permit jurisdiction.

Please refer to the "Need a Permit?" tab for permit information or other authorizations regarding these natural resources.

**Disclaimer:** If you are considering a project or action in, or near, a wetland or a stream, a NYS DEC permit may be required. The Environmental Resources Mapper does not show all natural resources which are regulated by NYS DEC, and for which permits from NYS DEC are required. For example, Regulated Tidal Wetlands, and Wild, Scenic, and Recreational Rivers, are currently not included on the maps.

INTRODUCTION

Kleinfelder was retained by Cypress Creek Renewables, LLC. (CCR) to perform a wetland and stream delineation (including report) for a 104-acre parcel located north of Ellicott Street, Batavia, New York with center coordinates of 42°58'18.41"N, -78° 8'31.70"W (Site). The Site is separated into two parcels (eastern and western). The eastern block and lot number is 18240020.-1-10.1 and the western block and lot number is 18240020.-1-9.111.

To identify potential environmental constraints for the design of the solar arrays, Kleinfelder personnel (Michael Newhouse) conducted the delineation on May 31, 2018. The delineation was conducted to identify all wetlands and streams, regardless of jurisdictional status.

Kleinfelder conducted the stream and wetland delineation within the Site boundaries in accordance with the procedures outlined in the 1987 United States Army Corps of Engineers (USACE) Wetlands Delineation Manual and the Regional Supplement to the Corps of Engineers Wetland Delineation Manual: Northcentral and Northeast Region, Version 2.0 (USACE, 2012). The following sections of this report describe the existing conditions of the Site, field methodology, and results of the delineation work.
2 SITE DESCRIPTION

2.1 SITE DESCRIPTION

The Trousdale property (Site) is a 104-acre parcel located at north of Ellicott Street, Batavia, New York. Kleinfelder conducted a Site visit on May 31, 2018 to assess the Site for wetlands, streams, and other natural resources. The property is currently used for agricultural crops and contains undeveloped woodlots. The Site location is depicted in Figure 1. Climate data for Town of Batavia, Genesee County NY can be found in Table 1.

2.2 GENERAL VEGETATIVE COMMUNITIES

The property is currently used for agriculture (recently planted with corn) and also contains undeveloped woodlots. Plant communities are predominantly Cropland (85%) with small patches of Successional Northern Hardwoods. The tree stratum of the Successional Northern Hardwoods is comprised of gray birch (*Betula populifolia*), sweet cherry (*Prunus avium*), pignut hickory (*Carya glabra*), and sugar maple (*Acer saccharum*). The shrub layer consisted of gray birch, sweet cherry, pignut hickory and buckthorn (*Rhamnus cathartica*). The herbaceous layer consisted of common dandelion (*Taraxacum officinale*), common wormwood (*Artemisia vulgaris*), great plantain (*Plantago major*), common red-raspberry (*Rubus idaeus*) and sweet cherry.

The Cropland vegetative community is mostly bare dirt planted with corn (*Zea mays*). There are hedgerows that separate the large agricultural fields. The tree stratum in the hedgerows consist of staghorn sumac (*Rhus typhina*), and sweet cherry. The shrub stratum was dominated by common raspberry. The herbaceous layer consisted of Virginia creeper (*Parthenocissus*...
quinquefolia), common dandelion, Queen Anne’s lace (Daucus carota), white clover (Trifolium repens), and orchard grass (Dactylis glomerata).

2.3 SOILS

According to the National Resource Conservation Service (NRCS) Web Soil Survey, a total of two mapped soils are located within the Site (NRCS, 2016). The percentage of each soil type on the Site and their respective hydric rating are presented in Table 1. A soil map is presented as Figure 2.

2.4 HYDROLOGY

The New York State Department of Environmental Conservation (NYSDEC) Environmental Resource Mapper was used to assess the presence or absence of NYSDEC mapped wetlands within the Site (NYSDEC, 2018). No NYSDEC wetlands are located on the Site, however, NYSDEC regulated wetland BS-11 is located within 0.25 miles to the west of the Site (Figure 3). No NYSDEC mapped streams were observed onsite.
The United States Fish and Wildlife (USFWS) NWI mapper was used to assess the presence or absence of NWI wetlands within the Site. No NWI wetlands were mapped on the Site. An NWI map is presented as Figure 4.

The Trousdale Site is located within the HUC 041201040107 watershed, which has a total drainage area of 12,487.8 acres. This watershed is in the eastern reach of the Tonawanda Creek Watershed. No National Hydrography Dataset (NHD) streams are located onsite.

2.5 FLOODPLAINS

A review of the FEMA flood map for the Site indicated there are no flood hazard zones within the Site boundaries (Figure 5) and the Site is not located within any 100-year floodplains.
3 FIELD DELINEATION METHODOLOGY

3.1 FIELD DELINEATION

On May 31, 2018, a Kleinfelder biologist conducted a stream and wetland delineation on the Site. During the field work, the approximate top-of-bank of streams and upland edge of wetland edges were flagged using a site-specific identification system. Following the establishment of each feature boundary in the field, coordinates of the flagged locations were recorded using a Trimble GeoXH (GeoExplorer 2008 Series). At representative points along the wetland boundary, data were collected to document the existing vegetation, soils and hydrology characteristics of the features.

To document the presence or absence of hydric soils in potential wetland areas, a Dutch auger or spade was used to obtain soil samples to a depth of approximately 20 inches at representative points. Soils were classified and documented using a Munsell Soil Color Chart (Munsell, 2009). Hydrology was assessed by evaluating each area for inundation, saturation, water marks, drainage channels, or other field indicators of wetland hydrology.

Vegetation identified at each of the sampling locations was described in terms of the dominant species in the overstory, understory/shrub, vine, and herbaceous layers. Overstory vegetation includes all vegetation in which the diameter at breast height (DBH) is greater than three inches. Understory/shrub vegetation is comprised of all woody species less than three inches DBH, and greater than 3.3 (1 meter) feet tall. The herbaceous layer consists of all non-woody vegetation and any woody vegetation less than 3.3 feet in height. The vine layer includes all woody vines greater than 3.3 feet in height. The indicator status and scientific name of each identified plant species was determined using the Northcentral and Northeast 2016 Regional Wetland Plant List (Lichvar et. al., 2016). USDA (2018) was used as an aid in the species identification. Wetland, stream, and pond features were classified according to (Cowardin, 1979), and USACE (2012) guidelines.

Streams were identified based on the presence of defined bed and banks and an observable ordinary high water mark. Stream bank is defined as that land area immediately adjacent to and which slopes toward the bed of a watercourse and which is necessary to maintain the integrity of a watercourse. Geomorphic traits such as flow regime, bank height, width and depth, sinuosity,
stream bed substrate, relative erosion, dominant riparian vegetation and percent riparian canopy cover were recorded. In addition to geomorphic features, streams were assessed to determine if macroinvertebrates were present.

All identified streams were characterized as perennial, intermittent, or ephemeral. The USACE defines perennial, intermittent, and ephemeral streams as follows:

- Perennial streams having running water throughout the majority of the year with groundwater contributing to stream flow.
- Intermittent streams are defined as having running water during certain times of the year when groundwater contributes to stream flow.
- Ephemeral streams are defined as having running water primarily after storm events and are dry the majority of the year because the water table is generally well below the stream bed (Environmental Laboratory, 1987).

3.2 REGULATORY AUTHORITIES

Various federal and state regulations govern impacts to waters of the United States (WOTUS). At the federal level, the Clean Water Act (CWA) Section 404 authorizes the discharge of dredged and fill material into WOTUS and Section 10 of the Rivers and Harbors Appropriation Act of 1899 authorizes excavation or fill within navigable WOTUS. Under Section 401 of the CWA, States have a right to review permit applications and issue a Water Quality Certification to confer concurrence for federal applications. New York State regulates wetland impacts under Article 24 (Freshwater Wetlands). A Joint Permit Application (including a jurisdictional determination) with the USACE and NYSDEC is required to permit impacts to wetlands and streams.
4 RESULTS AND DISCUSSION

This section discusses the wetlands and streams identified within the boundaries of the Site, their field location, the soil, hydrological, and vegetative characteristics of the wetlands. As a result of the field investigation, no wetlands or streams were identified on the Site. A Site Map showing that no aquatic features were observed, and locations of sample point collections are presented on Figure 6. Sample point data forms from the field study are provided in Appendix A. Photographs documenting Site conditions are located in Appendix B and a photograph reference map is presented as Figure 7.

4.1 AQUATIC FEATURE SUMMARY

No wetlands or streams were identified onsite.
The purpose of the wetland and stream delineation was to assess wetlands and watercourses within the project boundary regardless of jurisdictional status. No wetlands or streams were delineated during the field exercise. Any activities that disturb or encroach on any wetland or stream will require obtainment of a jurisdictional determination and a permit approval from the USACE. At that time USACE will decide if any wetlands are isolated and will make a decision on their jurisdictional status, as all wetlands delineated are subject to their potential jurisdiction. There are no wetlands onsite that have been mapped by the NYSDEC or fall within their jurisdiction.

If construction of the project will impact wetlands or other waterbodies/sources, a Joint Permit Application must be submitted to USACE and NYSDEC for jurisdictional determination and review of permit requirements. Authorization under the Nationwide Permit Program is possible for small wetland encroachments. Providing that this project proceeds with development in only the upland areas of the Site, it is anticipated that no wetland permitting will be required.
6 LIMITATIONS

This work was performed in a manner consistent with that level of care and skill ordinarily exercised by other members of Kleinfelder’s profession practicing in the same locality, under similar conditions and at the date the services are provided. Our conclusions, opinions and recommendations are based on a limited number of observations and data. It is possible that conditions could vary between or beyond the data evaluated. Kleinfelder makes no other representation, guarantee or warranty, express or implied, regarding the services, communication (oral or written), report, opinion, or instrument of service provided.

Kleinfelder offers various levels of investigative and engineering services to suit the varying needs of different clients. It should be recognized that definition and evaluation of geologic and environmental conditions are a difficult and inexact science. Judgments leading to conclusions and recommendations are generally made with incomplete knowledge of the subsurface conditions present due to the limitations of data from field studies. Although risk can never be eliminated, more-detailed and extensive studies yield more information, which may help understand and manage the level of risk.

**50/20 Thresholds**

- Tree Stratum: 11 (20%), 28 (50%)
- Sapling/Shrub Stratum: 12 (20%), 30 (50%)
- Herb Stratum: 15 (20%), 38 (50%)
- Woody Vine Stratum: 0 (20%), 0 (50%)

**Dominance Test Worksheet**

- Number of Dominant Species that are OBL, FACW, or FAC: 3 (A)
- Species Across all Strata: 9 (B)
- Percent of Dominant Species that are OBL, FACW, or FAC: 33.33% (A/B)

**Prevalence Index Worksheet**

- Total % Cover of:
  - OBL species: 0 x 1 = 0
  - FACW species: 0 x 2 = 0
  - FAC species: 55 x 3 = 165
  - FACU species: 115 x 4 = 460
  - UPL species: 20 x 5 = 100
  - Column totals: 120 (A) = 725 (B)
- Prevalence Index = B/A = 3.82

**Hydrophytic Vegetation Indicators:**

- Rapid test for hydrophytic vegetation
  - Dominance test is >50%
  - Prevalence index is ≤3.0
  - Morphological adaptations* (provide supporting data in Remarks or on a separate sheet)
  - Problematic hydrophytic vegetation* (explain)

*Indicators of hydric soil and wetland hydrology must be present, unless disturbed or problematic

**Definitions of Vegetation Strata:**

- Tree: Woody plants 3 in. (7.6 cm) or more in diameter at breast height (DBH), regardless of height.
- Sapling/shrub: Woody plants less than 3 in. DBH and greater than 3.28 ft (1 m) tall.
- Herb: All herbaceous (non-woody) plants, regardless of size, and woody plants less than 3.28 ft tall.
- Woody vines: All woody vines greater than 3.28 ft in height.

**Remarks:** (Include photo numbers here or on a separate sheet)

**Remarks:**
WETLAND DETERMINATION DATA FORM - Northcentral and Northeast Region

Project/Site: Trousdale  
City/County: Genesee  
Applicant/Owner: Cypress Creek Renewables  
State: NY  
Sampling Date: 5/31/18  
Investigator(s): MN  
Section, Township, Range: N/A  
Landform (hillslope, terrace, etc.): Terrace  
Local relief (concave, convex, none): None  
Slope (%): 0  
Lat.: 42°58'32.16" N  
Long.: 78°08'31.73"  
Datum: NAD 83  
Soil Map Unit Name: Beel-Benson soils (0 to 5 percent slopes)  
NWI Classification: N/A

Are climatic/hydrologic conditions of the site typical for this time of the year?  Y  
(If no, explain in remarks)

Are vegetation ________ , soil ________ , or hydrology ________ significantly disturbed?  Are "normal" circumstances present?  Yes

(If needed, explain any answers in remarks)

### SUMMARY OF FINDINGS

| Hydrophytic vegetation present? | N | Is the sampled area within a wetland? | No |
| Hydric soil present? | N | If yes, optional wetland site ID: |
| Wetland hydrology present? | N |

Remarks: (Explain alternative procedures here or in a separate report.)

Data point taken on edge of hedgerow between two agricultural fields.

### HYDROLOGY

Primary Indicators (minimum of one is required; check all that apply):
- Surface Water (A1)
- High Water Table (A2)
- Saturation (A3)
- Water Marks (B1)
- Sediment Deposits (B2)
- Drift Deposits (B3)
- Algal Mat or Crust (B4)
- Iron Deposits (B5)
- Inundation Visible on Aerial Imagery (B7)
- Sparsely Vegetated Concave Surface (B8)
- Water-Stained Leaves (B9)
- Aquatic Fauna (B13)
- Marl Deposits (B15)
- Hydrogen Sulfide Odor (C1)
- Oxidized Rhizospheres on Living Roots (C3)
- Presence of Reduced Iron (C4)
- Recent Iron Reduction in Tilled Soils (C5)
- Thin Muck Surface (C7)
- Other (Explain in Remarks)

Secondary Indicators (minimum of two required):
- Surface Soil Cracks (B6)
- Drainage Patterns (B10)
- Moss Trim Lines (B16)
- Dry-Season Water Table (C2)
- Crayfish Burrows (C8)
- Saturation Visible on Aerial Imagery (C9)
- Stunted or Stressed Plants (D1)
- Geomorphic Position (D2)
- Shallow Aquitard (D3)
- FAC-Neutral Test (D5)
- Microtopographic Relief (D4)

Field Observations:
- Surface water present? Yes  No  Depth (inches): 
- Water table present? Yes  No  Depth (inches): 
- Saturation present? Yes  No  Depth (inches):

Wetland hydrology present?  N

Describe recorded data (stream gauge, monitoring well, aerial photos, previous inspections), if available:

### Remarks:

US Army Corps of Engineers
Northcentral and Northeast Region
Photograph 1: Photo shows agricultural field that was recently planted with corn.

Photograph 2: Photo shows the small woodlot at the data point location showing sweet cherry saplings and buckthorn.
Photograph 3: This photo was taken at the small wooded island in the northeastern section of the property.

Photograph 4: This photo shows the area of the second upland data point location.
Photograph 5: Another photo showing the recently planted field with corn.

Photograph 6: This photo shows upland vegetation in the small woodlot located in the center of the western agricultural field.
Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency’s reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer “Yes” to a numbered question, please complete all the questions that follow in that section.
- If you answer “No” to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box “Moderate to large impact may occur.”
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the “whole action”.
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

1. Impact on Land

Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part I. D.1)

If “Yes”, answer questions a - f. If “No”, move on to Section 2.

<table>
<thead>
<tr>
<th>Relevant Part I Question(s)</th>
<th>No, or small impact may occur</th>
<th>Moderate to large impact may occur</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The proposed action may involve construction on land where depth to water table is less than 3 feet.</td>
<td>E2d</td>
<td>☑</td>
</tr>
<tr>
<td>b. The proposed action may involve construction on slopes of 15% or greater.</td>
<td>E2f</td>
<td>☑</td>
</tr>
<tr>
<td>c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.</td>
<td>E2a</td>
<td>☑</td>
</tr>
<tr>
<td>d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.</td>
<td>D2a</td>
<td>☑</td>
</tr>
<tr>
<td>e. The proposed action may involve construction that continues for more than one year or in multiple phases.</td>
<td>D1e</td>
<td>☑</td>
</tr>
<tr>
<td>f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).</td>
<td>D2e, D2q</td>
<td>☑</td>
</tr>
<tr>
<td>g. The proposed action is, or may be, located within a Coastal Erosion hazard area.</td>
<td>Bl1</td>
<td>☑</td>
</tr>
<tr>
<td>h. Other impacts:</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
2. **Impact on Geological Features**

   The proposed action may result in the modification or destruction of, or inhibit access to, any unique or unusual landforms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g)

   *If "Yes", answer questions a - c. If "No", move on to Section 3.*

<table>
<thead>
<tr>
<th>Relevant Part I Question(s)</th>
<th>No, or small impact may occur</th>
<th>Moderate to large impact may occur</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Identify the specific land form(s) attached:</td>
<td>E2g</td>
<td>☐</td>
</tr>
<tr>
<td>b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark. Specific feature:</td>
<td>E3c</td>
<td>☐</td>
</tr>
<tr>
<td>c. Other impacts:</td>
<td></td>
<td>☐</td>
</tr>
</tbody>
</table>

3. **Impacts on Surface Water**

   The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h)

   *If "Yes", answer questions a - l. If "No", move on to Section 4.*

<table>
<thead>
<tr>
<th>Relevant Part I Question(s)</th>
<th>No, or small impact may occur</th>
<th>Moderate to large impact may occur</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The proposed action may create a new water body.</td>
<td>D2b, D1h</td>
<td>☐</td>
</tr>
<tr>
<td>b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.</td>
<td>D2b</td>
<td>☐</td>
</tr>
<tr>
<td>c. The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.</td>
<td>D2a</td>
<td>☐</td>
</tr>
<tr>
<td>d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.</td>
<td>E2h</td>
<td>☐</td>
</tr>
<tr>
<td>e. The proposed action may create turbidity in a waterbody, either from upland erosion, runoff or by disturbing bottom sediments.</td>
<td>D2a, D2h</td>
<td>☐</td>
</tr>
<tr>
<td>f. The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.</td>
<td>D2c</td>
<td>☐</td>
</tr>
<tr>
<td>g. The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).</td>
<td>D2d</td>
<td>☐</td>
</tr>
<tr>
<td>h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.</td>
<td>D2e</td>
<td>☐</td>
</tr>
<tr>
<td>i. The proposed action may affect the water quality of any water bodies within or downstream of the site of the proposed action.</td>
<td>E2h</td>
<td>☐</td>
</tr>
<tr>
<td>j. The proposed action may involve the application of pesticides or herbicides in or around any water body.</td>
<td>D2q, E2h</td>
<td>☐</td>
</tr>
<tr>
<td>k. The proposed action may require the construction of new, or expansion of existing, wastewater treatment facilities.</td>
<td>D1a, D2d</td>
<td>☐</td>
</tr>
</tbody>
</table>
4. **Impact on groundwater**

The proposed action may result in new or additional use of ground water, or may have the potential to introduce contaminants to ground water or an aquifer.

*If “Yes”, answer questions a - h. If “No”, move on to Section 5.*

<table>
<thead>
<tr>
<th>Relevant Part I Question(s)</th>
<th>No, or small impact may occur</th>
<th>Moderate to large impact may occur</th>
</tr>
</thead>

#### a. If the proposed action requires federal or state air emission permits, the action may also emit one or more greenhouse gases at or above the following levels:

- More than 1000 tons/year of carbon dioxide (CO₂)
- More than 3.5 tons/year of nitrous oxide (N₂O)
- More than 1000 tons/year of carbon equivalent of perfluorocarbons (PFCs)
- More than 0.045 tons/year of sulfur hexafluoride (SF₆)
- More than 1000 tons/year of carbon dioxide equivalent of hydrochlorofluorocarbons (HFCs) emissions
- 43 tons/year or more of methane

#### b. The proposed action may generate 10 tons/year or more of any one designated hazardous air pollutant, or 25 tons/year or more of any combination of such hazardous air pollutants.

- D2g

#### c. The proposed action may require a state air registration, or may produce an emissions rate of total contaminants that may exceed 5 lbs. per hour, or may include a heat source capable of producing more than 10 million BTU's per hour.

- D2f, D2g

#### d. The proposed action may reach 50% of any of the thresholds in “a” through “c”, above.

- D2g

#### e. The proposed action may result in the combustion or thermal treatment of more than 1 ton of refuse per hour.

- D2s

#### f. Other impacts:

### 7. Impact on Plants and Animals

The proposed action may result in a loss of flora or fauna. (See Part I. E.2. m.-q.)

*If “Yes”, answer questions a - i. If “No”, move on to Section 8.*

PRINT FULL FORM
Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts and Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:
To complete this section:
- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact.
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

The SEQR for the Trousdale Solar Project was reviewed on March 2nd and completed on March 16, 2021 by the Town of Batavia Planning Board. Much time and effort was spent in order to address the many concerns of the residents who spoke at the Public Hearing. After much discussion and review of information, the viewsheds were mitigated by use of landscape buffers. The number of poles entering the project will be minimized.

A Special Use Permit was issued clearly addressing these issues.

Based on the mitigation, it was determined that the proposed action will have no adverse impacts on the environment.

---

**Determination of Significance - Type 1 and Unlisted Actions**

<table>

<th>SEQR Status:</th>
<th>☑ Type 1</th>
<th>☑ Unlisted</th>
</tr>
</thead>
</table>

Identify portions of EAF completed for this Project: ☑ Part 1  ☑ Part 2  ☑ Part 3
Upon review of the information recorded on this EAF, as noted, plus this additional support information

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the Town of Batavia Planning Board as lead agency that:

☑ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

***NOTE – if a company wants to have a lease-leaseback transaction with a tax exempt financing component the total fee charged would be 1.75% of Capital investment.***

Any deviation from the above listed fee schedule must be explained in writing to the Board by the CEO prior to (or simultaneously with) the approval of the Company's application and must be approved by the Board.

ATTACHMENT TO APPLICATION FOR FINANCIAL ASSISTANCE

Local Labor Workforce Certification

Project applicants (the "Company"), with projected / committed capital investment for facility construction of greater than or equal to $5,000,000, as a condition to receiving Financial Assistance (including a sales tax exemption, mortgage recording tax exemption, real property tax abatement, and/or bond proceeds) from the Genesee County Industrial Development Agency d/b/a Genesee County Economic Development Center (the "Agency"), will be required to utilize qualified Local Labor, as defined below, for all projects involving the construction, expansion, equipping, demolition and/or remediation of new, existing, expanded or renovated facilities (collectively, the "Project Site").

Local Labor Defined

Local Labor is defined as individuals residing in the following Counties: Genesee, Orleans, Monroe, Wyoming, Livingston, Wayne, Ontario, Seneca, Yates, Niagara, Erie, Chautauqua, Cattaraugus and Allegany (collectively, the "Local Labor Area").

Local Labor Requirement

At least 90% of the total number of Project employees, excluding construction project management, of the general contractor, subcontractor, or subcontractor to a subcontractor (collectively, the “Workers”) working on the Project Site must reside within the Local Labor Area. Companies do not have to be local companies as defined herein, but must employ local Workers residing within the Local Labor Area to qualify under the 90% local labor criteria.

It is understood that at certain times, Workers residing within the Local Labor Area may not be available with respect to a Project. Under this condition, the Company is required to contact the Agency to request a waiver of the Local Labor Requirement (the "Local Labor Waiver Request") based on the following circumstances: (i) warranty issues related to installation of specialized equipment or materials whereby the manufacturer requires installation by only approved installers; (ii) specialized construction for which qualified Local Labor Area Workers are not available; (iii) documented lack of Workers meeting the Local Labor Area requirement; or (iv) cost differentials in bids whereby use of local labor significantly increases the construction cost of the project. Prior to the granting of said waiver, the lowest bidding contractor which bid said construction project using local labor would have the right of first refusal to bid and match the lowest bid as a remedy to ensure compliance with this policy. Comprehensive documentation and justification will be required including documented evidence and verification by GCEDC staff or agents that the “right of first refusal” remedy has been affected unsuccessfully.

The Agency shall evaluate the Local Labor Waiver Request and make its determination related thereto based upon the supporting documentation received with such waiver request.

Local Labor Reporting Requirement

Companies authorized to receive Financial Assistance from the Agency will be required to file or cause to be filed a Local Labor Utilization Report (the “Report”) on such form as made available by the Agency, and as directed by the Agency, which will identify, for each Worker, the city, town, or village and associated zip code that each such Worker is domiciled in. The Report shall be submitted to the Agency or its designated agents as follows: (i) immediately prior to commencement of construction activities; and (ii) on or by the next following quarterly dates of January 1, April 1, July 1, and October 1 and each quarterly date thereafter through the construction completion date.

The Agency, or its designated agents, shall have the right, during normal business hours, to examine and copy the applicable books and records of the Company and to perform spot checks of all Workers at the Project site to verify compliance with the Local Labor Requirement throughout the construction period.

Enforcement

If Agency staff determines that: (i) the Local Labor Requirement is not being met; or (ii) upon use of its reasonable discretion, discovers or becomes aware of a compliance issue related to the Local Labor Requirement, then written notice delivered by Certified Mail of said Local Labor Requirement violation (the “Notice of Violation”) shall be provided to the Company.
The Company shall have 10 business days thereafter to either:

(i) provide written confirmation to the Agency indicating that it has cured the violation and is now in compliance with the Local Labor Requirement;
(ii) submit the Local Labor Waiver Request as described above; or
(iii) confirm in writing its inability to meet the Local Labor Requirement.

If the Company does not respond to the Agency’s Notice of Violation, or if the Company confirms its inability to meet the Local Labor Requirement then the Agency shall immediately terminate any and all Financial Assistance being provided to the Project in accordance with the terms of the underlying agreements between the Agency and the Company with respect to the Project. If a Local Labor Waiver Request is submitted and the Agency declines to issue the requestor waiver, then the Company shall have 10 business days after receipt of the notice of the waiver request denial to provide written confirmation to the Agency indicating that it has cured the violation and is now in compliance with the Local Labor Requirement. If the Agency does not receive such confirmation, the Agency shall then immediately terminate any and all Financial Assistance being provided to the Project in accordance with the terms of the underlying agreements between the Agency and the Company with respect to the Project.

The foregoing terms have been read, reviewed and understood by the Company and all appropriate personnel. The undersigned agrees and understands that the information contained herein must be transmitted and conveyed in a timely fashion to all applicable subcontractors, suppliers and materialmen. Furthermore, the undersigned realized and understands that failure to abide by the terms herein could result in the Agency revoking all or any portion of Financial Assistance, whether already received or to be received by the Company, as it deems reasonable in its sole discretion for any violation hereof.

Title: Sr. Director

Sworn to before me this 12th day of June 2021.
