3. DISCUSSIONS / OFFICIAL RECOMMENDATIONS TO THE BOARD:

3a. September 2021 Financial Statements- L. Farrell reviewed with the Committee the significant items of the September 2021 long form financial statements,

- Regular monthly activity for all funds. Most activity is in MedTech Centre.
- There are the accrual amounts for the MedTech Centre Property Management Fee and Economic Development Support Grant that are due to the EDC and paid quarterly.
- At this time, we should be at about 75% of budget for most line items. Most line items that were over budget before are beginning to level-out.
DRAFT

T. Bender made a motion to recommend to the full Board the approval of the September 2021 Financial Statements as presented; the motion was seconded by T. Felton. Roll call resulted as follows:

T. Felton - Yes
P. Battaglia - Absent
T. Bender - Yes (Video Conference)
D. Cunningham – Yes

The item was approved as presented.

3b. Strategic Investments - L. Farrell reviewed the Strategic Investments Analysis with the Committee stating that it is only an analysis of the cash on hand as well as the cash that is anticipated with certainty within a reasonable period of time. She noted that there were some changes made since the last review, including the following:
- 2021 activity has been updated to include 1) the Gateway GS land sale with net proceeds of about $232,000, 2) actual payments received for the Genesee County Chamber loans and 3) the anticipated Fancher land sale of approximately $130,000 by year end will be used to pay a due to/due from.
- For Ag Park Improvements, there was previously only about $19,000 allocated for the engineering, bidding and construction inspection for the drainage solution at Ag Park. The construction portion has been added, totaling approximately $100,000 for the drainage solution in 2021.
- For the Water Works and Sewer Works, $50,000 per entity has been reserved for start-up costs. These costs have not been approved by the Board yet.
- YSG has been added to Land Lease Payments, which was previously listed as an opportunity.
- The MedTech Reserve has been pushed out to 2026. The Committee suggested that this should potentially be moved forward to 2022 or 2023 dependent upon an evaluation of the actual risk/liability.
- Some opportunities may move to actuals soon. The HP Hood and Upstate Niagara OCR loans have not yet closed but may close as soon as year-end or early 2022.

3c. GGLDC 2022 Budget - L. Farrell presented the 2022 budget to the Committee for final review and recommendation to the full Board for approval. L. Farrell noted that there were only a few changes made to the budget since the Committee reviewed it last:
- For cash projections, the HP Hood land sale for approximately $1,500,000, was moved to the GAB, LLC.
- At the end of 2021, the projected cash balance on a consolidated basis is $5.1M, of which $3.75M is strategic investment funds.
- Land lease payments increased because the land lease rates were increased at the last Board meeting.
- For MedTech Centre, Building Maintenance was increased by about $20,000 for common area painting, maintenance to common area entryway flooring, and integration of low to no maintenance landscaping.
- The cash budget is then converted into an accrual budget. The significant changes when converting from cash to accrual are:
DRAFT

- Only interest income is shown for loan repayments received from companies.
- Only interest expense is shown for debt service for MedTech Centre.
- Depreciation is included.

3h. WDI Grant/Cornell in High School - Our workforce development team is planning a beta test to support our food processing manufacturers.

“Cornell in High School” Program is being set up to teach Cornell’s Dairy Science and Sanitation. Cornell instructors will teach a maximum of 40 students from Batavia High Seniors, GV BOCES – Culinary Seniors and possible other school districts based on enrollment numbers.

The program is estimated to cost approximately $25,000. There is potential to receive $10,000 of funding support from the Workforce Development Institute (WDI) and the balance funded by the GGLDC.

WDI’s contract was included with Board materials. The GGLDC will need to provide required standard documentation for reimbursement and a write up on the program outcomes.

This funding support will enable the GGLDC to pilot a program to provide high school students with the training, experience, and support needed for employment in the food manufacturing industry. Students participating in this program will receive the training necessary to develop a certificate-based skill set for entry level employment in food processing after graduation. Participants will be given the opportunity to
meet with employers from food manufacturing companies and interview for potential employment. Not only will this program help students find meaningful employment, but this program will also create a pipeline of skilled workers for local food production manufacturing companies.

This project is expected to result in students developing new skills and being placed in jobs within the food manufacturing industry.

Cleaning Services

**Discussion:** During 2019, staff reached out to four cleaning companies to obtain quotes for 2020 cleaning services. Commercial Cleaning Services of Western New York, the company that was currently being used, continued to offer the most competitive price and we continue to be satisfied with the services. New quotes were not obtained for 2021 or 2022 services. We anticipate getting quotes for cleaning services every three years.

**Fund Commitment:** Up to $14,000, plus reimbursement for supplies; Med Tech Centre site maintenance; included in the 2022 GGLDC Budget.

**Action Requested:** Staff is requesting recommendation from the Committee to continue this contract for 2022 cleaning services at a cost not to exceed $14,000 for the year, plus reimbursement for supplies.
Insurance Renewal

Tompkins went out to bid for the Agency's 2022 insurance renewal. Other markets were explored as listed below, but they were unable to find another carrier that was able to meet the GCEDC & GGLDC's needs at an affordable rate.

The total premium proposed by Selective is within the amounts included in the EDC and LDC 2022 budgets.

Change order for Ag Park drainage construction

Discussion: After bidding and award, Victor Excavating conducted a field review and survey layout in the field. They took spot elevation shots at various locations throughout the project to verify elevations. The elevations that they took did not match the design plans or the as-builts that were on record. If the original design was kept as is, this would have resulted in ponding in the roadside swale and an ineffective design.

In order to avoid ponding and drainage issues for the project, Victor Excavating conducted a more thorough survey to confirm elevations. Based on this information, CPL revised their full design (at no additional cost) in order to provide positive drainage and minimize impact on the surrounding properties. This resulted in properly grading the ditch line to the proposed elevations and design plans from 2013 to establish the proper grades. Ultimately, this resulted in more earthwork needed from the contractor and as a result, the change order that is being presented. The contractor honored his unit prices for earthwork and we feel it is a fair value for the work being conducted.

Fund commitment: $27,385.

Committee action request: Recommend approval to the full Board of change order #1 for Victor Excavating.

Revolving Loan Fund Bad Debt Write off

**Discussion:** The Rest & Revive Float Center, LLC was approved for a $100,000 loan from RLF #2 to support their project in 2018. They made approximately $10,300 in principal payments before the Covid pandemic. During the pandemic their business took a serious decline. They had applied for, and were approved, for two three month waivers of payments due to the pandemic. They have not made any payments since April of 2021 and are currently in default of their loan terms. They have received a purchase offer for their facility and asking for a settlement on their loan in the amount of $71,680.00. Their total outstanding principal and interest balance at December 31, 2021 is $93,761.28 plus an additional $1,311.31 in late fees.

**Fund Commitment:** None.

**Committee action request:** Recommend approval of loan settlement amount of $71,680.00 to the full Board which would include writing off approximately $23,400 against the allowance for bad debts. This is based on a closing date of 12/31/21. If the closing date is before that, then the actual amount written off to bad debts would be less.
