

LandPro Equipment Builds Facility & Workforce Pipeline with GCEDC Support

Project Overview: To serve customers across western New York with advanced farm and consumer equipment, **LandPro Equipment** needed to develop both a flagship facility and career exploration pathways to serve their growing workforce.

Project Solution: Working with the GCEDC, LandPro Equipment received the financial support to complete a 53,000 square-foot facility; and partnered in launching GLOW With Your Hands to bring youth in active engagement with the machinery and careers the company brings to customers.

Company Perspective: The Genesee County Economic Development Center has been an instrumental partner in making this project come to fruition; their team stepped up to ensure LandPro Equipment was well positioned to succeed in the community.

-Tom Sutter, President and CEO
