REQUIRED COMMUNICATIONS

Board of Directors
STAMP Sewer Works, Inc.
Batavia, New York

We have audited the financial statements of the STAMP Sewer Works, Inc. (the "Corporation"), for the year ended December 31, 2025. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards* as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated October 2, 2025. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Corporation are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year. We noted no transactions entered into by the Corporation during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the consolidated financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the consolidated financial statements and because of the possibility that future events affecting them may differ significantly from those expected. There are no accounting estimates reflected in the financial statements that we consider to be a material nature.

The financial statement disclosures are neutral, consistent and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. We did not identify any misstatements required to be disclosed.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated March 25, 2026.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Corporation's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Corporation's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to Management's Discussion and Analysis (MD&A), which is required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

Restriction on Use

This information is intended solely for the use of the Board of Directors and management of the STAMP Sewer Works, Inc. and is not intended to be, and should not be, used by anyone other than these specified parties.

MANAGEMENT LETTER

Board of Directors
STAMP Sewer Works, Inc.
Batavia, New York

In planning and performing our audit of the financial statements of the STAMP Sewer Works, Inc. (the "Corporation") for the year ended December 31, 2025, in accordance with auditing standards generally accepted in the United States of America, we considered the Corporation's system of internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Corporation's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Corporation's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This communication is intended solely for the information and use of management, the Board of Directors and others within the Corporation and is not intended to be, and should not be, used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
STAMP Sewer Works, Inc.
Batavia, New York

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of STAMP Sewer Works, Inc. (A New York "Corporation"), as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the Corporation's basic financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Corporation as of December 31, 2025 and the respective changes in financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Corporation and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporation's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The Risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit;
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, no such opinion is expressed;
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements; and
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on Page 4 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, and historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 25, 2026; on our consideration of the Corporation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Corporation's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Corporation's internal control over financial reporting and compliance.

A. REPORTING ENTITY

The Corporation was created in 2021 with a focus to engage in any lawful act or activity for which a sewage works corporation may be organized under the Transportation Corporations Law of the State of New York, provided that it may not engage in any act or activity requiring the consent or approval of any state official, department, board, agency or other body without such consent or approval first being obtained and further provided that it may engage in the acts and activities of a sewage works corporation only in the Town of Alabama, New York and the Town of Shelby, New York. The Genesee Gateway Local Development Corporation (GGLDC) is the sole member of the corporation.

Management has determined that the Corporation is a component unit of the GGLDC in accordance with U.S. GAAP.

B. BASIS OF PRESENTATION

The Corporation's basic financial statements consist of three statements that provide information about the Corporation's activities. The first statement is the balance sheet which lists all the Corporation's assets and liabilities, with the difference reported as shareholder's equity. The second statement is the statement of income and changes in shareholder's equity which details how the Corporation's shareholder's equity changes during the current year based on the reporting of the income and expenses recognized by the Corporation. The third statement is the statement of cash flows which reports the activities that provide or use the cash and cash equivalents of the Corporation.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The Corporation's financial statements are prepared in conformity with accounting principles generally accepted in the United States. The Corporation is subject to federal and state income taxes in accordance with corporation tax laws.

E. CASH AND CASH EQUIVALENTS

The Corporation's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

F. ACCOUNTS RECEIVABLE

Accounts receivable are reported at their net realizable value. Generally accepted accounting principles require the establishment of an allowance for uncollectible accounts. No allowance for uncollectible accounts receivable has been provided since management believes that such allowance would not be necessary.

G. STATEMENT OF CASH FLOWS

For the purposes of the statement of cash flows the Corporation considers cash and cash equivalents to be all unrestricted and restricted cash accounts including demand accounts and short-term investments with original maturities of three months or less from the date of acquisition.

STAMP SEWER WORKS, INC.

Actual results could differ from those estimates.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors
STAMP Sewer Works, Inc.
Batavia, New York

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of STAMP Sewer Works, Inc. (the Corporation) as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the Corporation's basic financial statements, and have issued our report thereon dated March 25, 2026.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Corporation's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Corporation's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

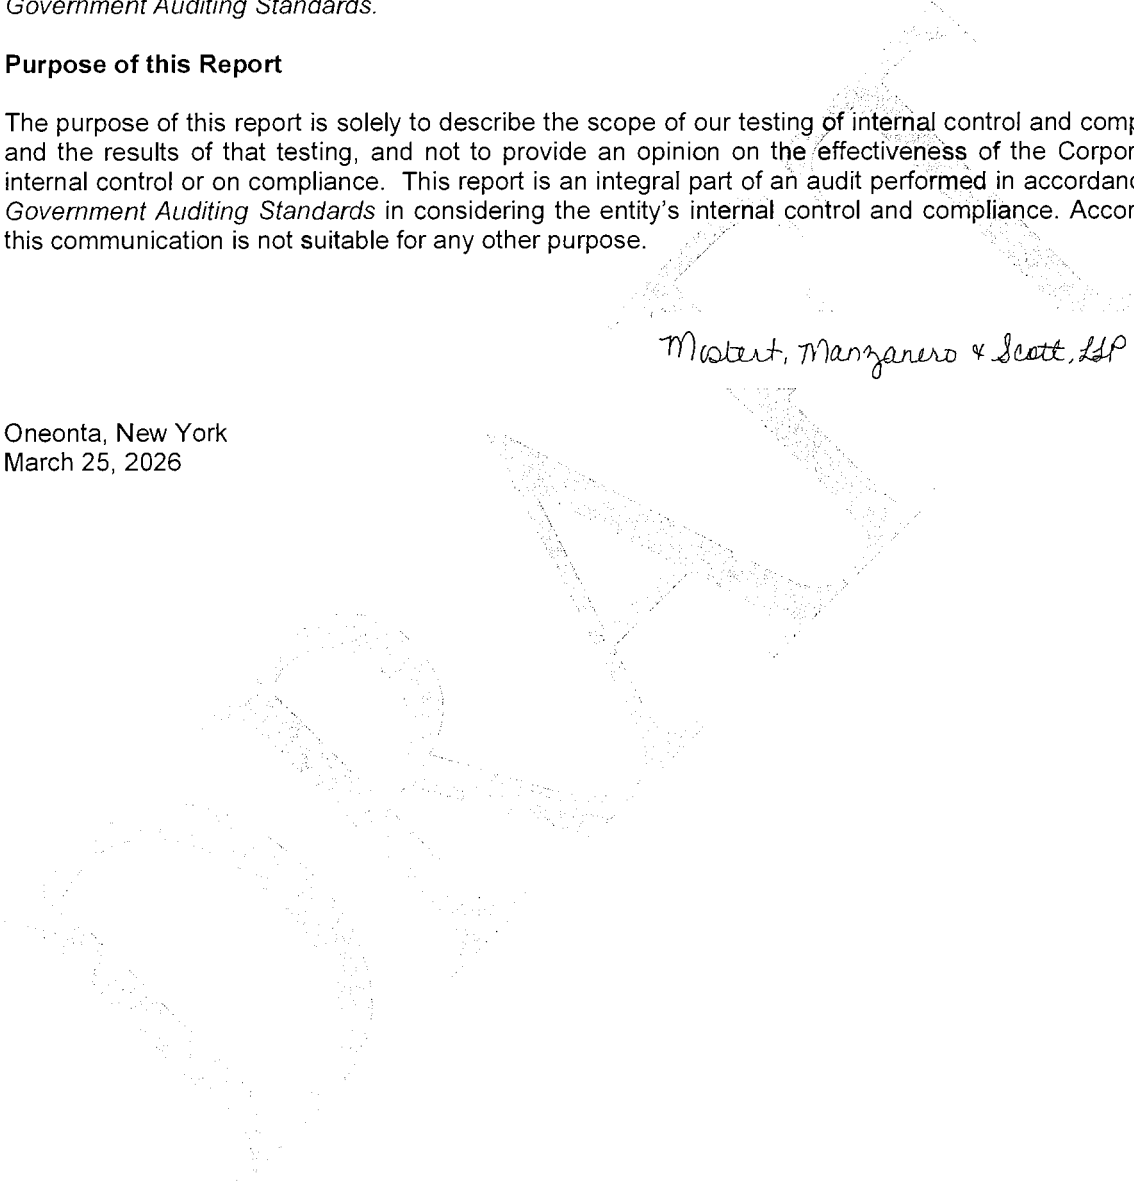

As part of obtaining reasonable assurance about whether the Corporation's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Corporation's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

STAMP SEWER WORKS, INC.
DISPOSITION OF PROPERTY GUIDELINES (THE "GUIDELINES")
Adopted pursuant to and in accordance with Sections 2824 and 2896 of the Public Authorities Law

SECTION 1. DEFINITIONS

- A. "Contracting Officer" shall mean the officer or employee of STAMP Sewer Works, Inc. (hereinafter, the "Corporation") who shall be appointed by resolution to be responsible for the disposition of property.
- B. "Dispose" or "disposal" shall mean transfer of title or any other beneficial interest in personal or real property in accordance with Section 2897 of the Public Authorities Law.
- C. "Property" shall mean personal property in excess of five thousand dollars (\$5,000) in value, and real property, and any inchoate or other interest in such property, to the extent that such interest may be conveyed to another person for any purpose, excluding an interest securing a loan or other financial obligation of another party.

SECTION 2. DUTIES

- A. The Corporation shall:
- (i) maintain adequate inventory controls and accountability systems for all property owned by the Corporation and/or under its control;
 - (ii) periodically inventory such property to determine which property shall be disposed of;
 - (iii) produce a written report of such property in accordance with subsection B herewith; and
 - (iv) transfer or dispose of such property as promptly and practicably as possible in accordance with Section 3 below.
- B. The Corporation shall:
- (i) publish, not less frequently than annually, a report listing all real property owned by the Corporation. Such report shall consist of a list and full description of all real and personal property disposed of during such period. The report shall contain the price received by the Corporation and the name of the purchaser for all such property sold by the Corporation during such period; and
 - (ii) deliver copies of such report to the Comptroller of the State of New York, the Director of the Budget of State of New York, the Commissioner of the New York State Office of General Services, and the New York State Legislature (via distribution to the majority leader of the senate and the speaker of the assembly).

SECTION 3. TRANSFER OR DISPOSITION OF PROPERTY

- A. Supervision and Direction. Except as otherwise provided herein, the duly appointed Contracting Officer shall have supervision and direction over the disposition and sale of property of the Corporation. The Corporation shall have the right to dispose of its property for any valid corporate purpose.

B. Custody and Control. The custody and control of Corporation property, pending its disposition, and the disposal of such property, shall be performed by the Corporation or by the Commissioner of General Services when so authorized under Section 2897 of the Public Authorities Law.

C. Method of Disposition. Unless otherwise permitted, the Corporation shall dispose of property for not less than its fair market value by sale, exchange, or transfer, for cash, credit, or other property, with or without warranty, and upon such other terms and conditions as the Corporation and/or Contracting Officer deems proper. The Corporation may execute such documents for the transfer of title or other interest in property and take such other action as it deems necessary or proper to dispose of such property under the provisions of these Guidelines. Provided, however, that no disposition of real property, or any interest in real property, shall be made unless an appraisal of the value of such property has been made by an independent appraiser and included in the record of the transaction, and, provided further, that no disposition of any other property which because of its unique nature or the unique circumstances of the proposed transaction is not readily valued by reference to an active market for similar property, shall be made without a similar appraisal.

D. Sales by the Commissioner of General Services (the "Commissioner"). When the Corporation shall have deemed that transfer of property by the Commissioner will be advantageous to the State of New York, the Corporation may enter into an agreement with the Commissioner where under such Commissioner may dispose of property of the Corporation under terms and conditions agreed to by the Corporation and the Commissioner. In disposing of any such property, the Commissioner shall be bound by the terms of Section 2897 of the Public Authorities Law and references to the Contracting Officer shall be deemed to refer to such Commissioner.

E. Validity of Deed, Bill of Sale, Lease, or Other Instrument. A deed, bill of sale, lease, or other instrument executed by or on behalf of the Corporation, purporting to transfer title or any other interest in property of the Corporation in accordance herewith shall be conclusive evidence of compliance with the provisions of these Guidelines and all applicable law insofar as concerns title or other interest of any bona fide grantee or transferee who has given valuable consideration for such title or other interest and has not received actual or constructive notice of lack of such compliance prior to the closing.

F. Bids for Disposal; Advertising; Procedure; Disposal by Negotiation; Explanatory Statement.

(i) Except as permitted by all applicable law, all disposals or contracts for disposal of property made or authorized by the Corporation or Contracting Officer shall be made after publicly advertising for bids except as provided in subsection (iii) of this Section F.

(ii) Whenever public advertising for bids is required under subsection (i) of this Section F:

(A) the advertisement for bids shall be made at such time prior to the disposal or contract, through such methods, and on such terms and conditions as shall permit full and free competition consistent with the value and nature of the property proposed for disposition;

(B) all bids shall be publicly disclosed at the time and place stated in the advertisement; and

(C) the award shall be made with reasonable promptness by notice to the responsible bidder whose bid, conforming to the invitation for bids, will be most advantageous to the Corporation, price and other factors considered; provided, that all bids may be rejected at the Corporation's discretion or when it is in the public interest to do so.

- (iii) Disposals and contracts for disposal of property may be negotiated or made by public auction without regard to subsections (i) and (ii) of this Section F but subject to obtaining such competition as is feasible under the circumstances, if:
 - (A) the personal property involved has qualities separate from the utilitarian purpose of such property, such as artistic quality, antiquity, historical significance, rarity, or other quality of similar effect, that would tend to increase its value, or if the personal property is to be sold in such quantity that, if it were disposed of under subsections (i) and (ii) of this Section F, would adversely affect the state or local market for such property, and the estimated fair market value of such property and other satisfactory terms of disposal can be obtained by negotiation;
 - (B) the fair market value of the property does not exceed fifteen thousand dollars;
 - (C) bid prices after advertising therefore are not reasonable, either as to all or some part of the property, or have not been independently arrived at in open competition;
 - (D) the disposal will be to the state or any political subdivision or public benefit corporation, and the estimated fair market value of the property and other satisfactory terms of disposal are obtained by negotiation;
 - (E) under those circumstances permitted by Section (G) below; or
 - (F) such action is otherwise authorized by law.
 - (iv) (A) An explanatory statement shall be prepared of the circumstances of each disposal by negotiation of:
 - (1) any personal property which has an estimated fair market value in excess of fifteen thousand dollars;
 - (2) any real property that has an estimated fair market value in excess of one hundred thousand dollars, except that any real property disposed of by lease or exchange shall only be subject to clauses (3) and (4) of this subparagraph;
 - (3) any real property disposed of by lease, if the estimated annual rent over the term of the lease is in excess of \$15,000; or
 - (4) any real property or real and related personal property disposed of by exchange, regardless of value, or any property any part of the consideration for which is real property.
 - (B) Each such statement shall be transmitted to the persons entitled to receive copies of the report required under all applicable law not less than ninety (90) days in advance of such disposal, and a copy thereof shall be preserved in the files of the Corporation making such disposal.
- (G) Disposal of Property for less than Fair Market Value ("FMV").
- (i) No assets owned, leased or otherwise in the control of the Corporation may be sold, leased, or otherwise alienated for less than its FMV except if:

- (A) The transferee is a government or other public entity, and terms of transfer require that the ownership and use of the asset will remain with the government or any other public entity; or
 - (B) the purpose of transfer is within the purpose, mission or governing statute of the Corporation; or
 - (C) in the event the Corporation seeks to transfer an asset for less than its FMV to other than a governmental entity, which disposal would not be consistent with the Corporation's mission, purpose or governing statutes, the Corporation shall provide written notification thereof to the governor, the speaker of the assembly, and the temporary president of the senate, and such proposed transfer shall be subject to denial by the governor, the senate, or the assembly. Denial by the governor shall take the form of a signed certification by the governor. Denial by either house of the legislature shall take the form of a resolution by such house. The governor and each house of the legislature shall take any such action within sixty days of receiving notification of such proposed transfer during the months of January through June, provided that if the legislature receives notification of a proposed transfer during the months of July through December, the legislature may take any such action within sixty days of January first of the following year. If no such resolution or certification is performed within sixty days of such notification of the proposed transfer to the governor, senate, and assembly, the Corporation may effectuate such transfer. Provided, however, that with respect to a below market transfer by the Corporation that is not within the purpose, mission or governing statute of the Corporation, if the governing statute provides for the approval of such transfer by the executive and legislative branches of the political subdivision in which the Corporation resides, and the transfer is of property obtained by the Corporation from that political subdivision, then such approval shall be sufficient to permit the transfer.
- (ii) If a below FMV transfer is proposed, the following information must be provided to the Corporation's board and the public:
- (A) a full description of Asset;
 - (B) an appraisal of the FMV of the asset and any other information establishing the FMV sought by the board;
 - (C) a description of purpose of transfer, and a reasonable statement of the kind and amount of the benefit to the public resulting from the transfer, including but not limited to the kind, number, location, wages, or salaries of jobs created or preserved as required by the transfer, the benefits, if any, to the communities in which the asset is situated as are required by the transfer;
 - (D) a statement of the value to be received compared to the FMV;
 - (E) the names of any private parties participating in the transfer, and if different than the statement required by subsection (D) of this Section, a statement of the value to the private party;
 - (F) the names of other private parties that have made an offer for such asset, the value offered, and the purpose for which the asset was sought to be used.
- (iii) Before approving the disposal of any property for less than FMV, the board must consider the information described in the above Section 3(G)(ii) and make a written determination

that there is no reasonable alternative to the proposed below-market transfer that would achieve the same purpose of such transfer.

These Guidelines are subject to modification and amendment at the discretion of the Corporation's board and shall be filed annually with all local and state agencies as required under all applicable law.

The designated Contracting Officer for the Corporation is the **Corporation's Board President**.

1. INTRODUCTION

The policies and procedures set forth herein have been developed by STAMP Sewer Works, Inc. (the "Corporation") pursuant to Section 2824 of the Public Authorities Law regarding the procurement of Goods and Services not required by law to be procured pursuant to competitive bidding.

These policies and procedures apply only to Goods and Services paid for by the Corporation for its own use and account. 2. DECLARATION OF POLICY

Goods and Services which are not required by law to be procured pursuant to competitive bidding must be procured in a manner so as to assure the prudent and economical use of Corporation moneys in the best interest of the Corporation, to facilitate the acquisition of Goods and Services of maximum quality at the lowest possible cost under the circumstances and to guard against favoritism, improvidence, extravagance, fraud and corruption. To further these objectives, the Members have adopted the policies and procedures set forth herein governing all procurement of Goods and Services which are not required to be procured pursuant to competitive bidding.

The Corporation hereby finds and determines that Professional Services are, in all cases, exempt from these procurement policies and procedures, as solicitation of alternate proposals and quotations is not in the best interest of the Corporation in situations in which special skills and expertise are required.

5. NO COMPETITIVE BIDDING

As of the date of adoption of these policies and procedures, the Corporation is not subject to the competitive bidding requirements of Section 103 of the General Municipal Law.

6. COMPETITIVE QUOTATIONS

6.1. Written Descriptions Required

Upon a determination by the Procurement Officer that Goods or Services are to be procured through competitive or verbal quotations, the Procurement Officer shall cause to be made a written description for each such Goods or Services to be procured. Such description need not necessarily include detailed specifications but may be generic or in outline form or describe the result sought by the Corporation. Such written description shall contain that information deemed necessary for the procurement of the desired Goods or Services in accordance with the policies of the Corporation, including a statement that the requested bid or quotation price shall include a statement whether cost of delivery is included, a statement that the Corporation reserves the right to reject all bids or quotations, waive minor deviations, consider alternative bids or quotations, negotiate price and terms with those making a bid or quotation (provided that negotiations with all those making a bid or quotation will be on substantially the same basis and regarding substantially the same matters), subject to the same terms and conditions of the written descriptions being sought by the Corporation and a statement regarding security and/or insurance, if required.

6.2. Soliciting Written Competitive Quotations

1. If the cost of the Goods or Services to be procured, based upon the written description prepared for the desired Goods or Services, will require an expenditure of more than \$5,000, but less than \$10,000, the desired Goods or Services shall be procured through Competitive Quotations solicited from not less than two Vendors.

2. If the cost of the Goods or Services to be procured, based upon the written description prepared for the desired Goods or Services, will involve an expenditure of more than \$10,000, the desired Goods or Services shall be procured through Competitive Quotations solicited from not less than three Vendors.

3. If, following reasonable efforts, insufficient numbers of Vendors exist for the solicitation of the requisite number of Competitive Quotations, then the Procurement Officer shall cause to be solicited Competitive Quotations from less than the requisite number of Vendors; provided, however, that the basis and other

facts and circumstances or such efforts and/or findings relating to this provision shall be placed in writing.

4. The Procurement Officer shall cause to be made a record of the written description, the solicitation of the Competitive Quotations, the Competitive Quotations received and any other documents or materials prepared or received in connection with the procurement of Goods and Services of the Corporation.

5. Competitive Quotations need not be sealed and need not be opened and read at a stated time.

6. The Procurement Officer need not recommend the procurement of Goods and Services from the Vendor offering the lowest dollar quotation, but may recommend to the Members determinations of which quotations will fulfill or meet the best interests or needs of the Corporation, and each recommended determinations may be based on such factors as, without limitation, quality, features or options, reliability or reputation of the Vendor, availability of service, delivery time and location of the Vendor (local vis-a-vis non-local, in-state vis-a-vis out-of-state or country); and the Procurement Officer may negotiate terms and price with all Vendors submitting quotations (provided that all such negotiations will be on substantially the same basis and regarding substantially the same matters), and the determination of the Members pursuant to the Procurement Officer's recommendations made in good faith shall be final.

6.3. Exceptions

1. General Exceptions. The following Goods and Services may be procured by the Corporation without soliciting competitive quotations:

d. Goods in excess of \$500.00 procured by the State through the New York State Office of General Services, subject to rules established by such Office, in accordance with Section 163 of the State Finance Law; provided, however, that no such procurement shall be made from such Office when Competitive Quotations have already been received, unless such procurement may be made upon the same terms, conditions and specifications at a lower price through such Office;

6.4. Authorization

The procurement of Goods and Services which will involve an expenditure of less than \$5,000 may be approved by the Procurement Officer. Authorization for individual expenditures of \$5,000 and over shall require the formal review and approval of the Corporation's Members.

6.5. Entering Into the Contract

1. Except as provided in Section "6.5.2" herein, upon receipt of the requisite number of Competitive Quotations, the Procurement Officer shall recommend to the Members that the Corporation enter into a Contract, or enter into an agreement, for such Goods or Services to the Vendor that submitted the Competitive Quotation with the lowest dollar offer for such Goods or Services, but subject to the provisions of Section "6.2.6" hereof.

2. If the Procurement Officer shall recommend to the Members that the Corporation enter into a Contract for Goods or Services to a Vendor that did not submit the Competitive Quotation with the lowest dollar offer, the

Procurement Officer shall state the reasons such an award furthers the policy set forth in Section "2" herein and in accordance with Section "6.2.6" hereof.

3. Upon the procurement of Goods or Services in accordance with the provisions of Section "6.3" herein, the Procurement Officer shall recommend to the Members that the Corporation award a Contract, or enter into an agreement, for such Goods or Services to the Vendor identified by the Procurement Officer.
4. Upon receipt of the recommendation by the Procurement Officer regarding the entering into a Contract, the Members shall authorize the Procurement Officer to cause to be procured such Goods or Services with the recommended Vendor; provided, however, that the Members reserve the right to reject all bids or quotations, waive minor deviations, consider alternative bids or quotations, subject to the same terms and conditions of the written descriptions being sought by the Corporation.

6.6. Purchases (\$5,000 or less)

Notwithstanding the provisions set forth herein, the procurement of Goods or Services involving an expenditure of up to five thousand dollars (\$5,000.00) may be made without seeking Competitive Quotations; provided, however, that any agent of the Corporation authorized to make such a procurement shall use his or her best efforts to obtain the lowest cost for such Goods or Services, but taking into consideration the terms of Section "6.2.6" hereof.

6.7. Policy for Corporation's Benefit

These policies and procedures are intended solely for the benefit of the Corporation and are not intended for the economic or other benefit of any particular Vendor making a quotation; and accordingly, no Vendor shall have the right to challenge the determination of the Corporation to enter into Contracts for Goods and Services in accordance with the policies and procedures herein set forth.

III. Delegation Of Authority

The members of the Corporation hereby delegate their responsibility for the implementation and administration of the Corporation's deposit and investment programs, including the authority to execute any security and custody agreements required by this Policy, to the Treasurer or his or her designee who shall establish written procedures for the operation of the programs consistent with this Policy. Such procedures shall regulate subordinate employees and include an adequate internal control structure to provide a satisfactory level of accountability based on a database or record incorporating descriptions and amounts of deposits and investments, transaction dates, interest rates, market prices and other information necessary to manage the portfolio and to identify the sources of all funds being invested.

IV. Internal Controls

The Treasurer is responsible for establishing and maintaining an internal control structure to provide reasonable, but not absolute, assurance that deposits and investments are safeguarded against loss from unauthorized loss or disposition, that such transactions are executed in accordance with proper authorization and recorded properly and, that such transactions are managed in compliance with applicable laws and regulations.

V. Prudence

The Treasurer, his or her subordinates and any other Corporation employee having responsibility for the deposit or investment of Corporation moneys shall at all times act responsibly as custodian of the public trust. Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their affairs not for speculation, but for investment, considering the safety of principal as well as the income to be derived. All Corporation directors, officers and employees involved in the execution of the investment program shall refrain from personal business activity that could conflict with proper execution of the investment program or which could impair their ability to make impartial investment decisions, and shall adhere to the Corporation's Code of Ethics.

STAMP SEWER WORKS, INC.

2026 Assessment of the Effectiveness of Internal Controls

Purpose of STAMP Sewer Works, Inc.

STAMP Sewer Works, Inc.'s mission is to operate and maintain an onsite sanitary sewer transmission system from tenants within the STAMP site and the Hamlet of Alabama to an existing wastewater treatment plant. STAMP Sewer Works, Inc. will also own, operate, and maintain an outfall pump station and force main to accept post treated process wastewater from industrial tenants within the STAMP site.

Internal Controls

The accounting, financial reporting, and cash management functions are carried out relying on a multitude of internal controls. A Financial Procedures document details all aspects of the financial controls in place. The Genesee Gateway Local Development Corp. (GGLDC) is the sole shareholder of STAMP Sewer Works, Inc. To be efficient and cost effective and in accordance with the goal of developing shovel-ready sites to assist in the enabling of IDA assisted projects, the staff of the GGLDC's sole owner, the Genesee County Industrial Development Agency d/b/a/ Genesee County Economic Development Center (GCEDC), provides services which enhance the internal controls of STAMP Sewer Works, Inc.. Examples of some of the controls used are listed below:

- All invoices must be reviewed and verified by the Treasurer or GCEDC's CFO or President/CEO. All checks require two Board Member signatures. GCEDC's CFO opens and reviews all bank statements and bank reconciliations. – ***Multiple persons signing off on the process and the GCEDC's CFO opens and reviews bank statements and does not have authorization to sign checks.***
- All checks received by STAMP Sewer Works, Inc. are recorded and stamped "for deposit only" by GCEDC's Operations Assistant or Finance Assistant and given to GCEDC's Operations Manager for review. GCEDC's Operations Manager ensures that all funds are coded, and that each transaction is recorded in the accounting software. The deposit slips are prepared by GCEDC's Finance Assistant and deposited in the bank. The deposit receipt from the bank is then attached to the appropriate back up for the deposit. – ***Bank verification and receipts make this low risk.***
- Computers are password protected. Accounting software is separately password protected. Access to the accounting software is limited to the Operations Manager, Finance Assistant and CFO. – ***Password protection and limited access to accounting software makes this low risk.***

Note: Internal controls are reviewed continuously, and adjustments are made as necessary.

The system of controls applicable to the GCEDC was last reviewed by the GCEDC's Audit & Finance Committee on August 13, 2025 and STAMP Sewer Works, Inc.'s Board of Directors on March 25, 2026. These reviews affirmed that there are no material control weaknesses to be reported. The GCEDC and STAMP Sewer Works, Inc. undergo annual financial audits by an independent CPA firm. While auditors are not engaged to perform an audit of internal controls, auditors do provide management letter comments when they encounter internal weaknesses. No material weaknesses in internal controls have been identified by the independent auditors.

In summary, the present internal control structure appears to be sufficient to meet internal control objectives that pertain to the prevention and detection of errors and irregularities.

CASH CONTROL ACTIVITIES

Cash Receipts

The GCEDC/GGLDC does not routinely handle cash. When cash is received, it's generally once a year at the annual meeting location via registration fees paid. Mail is opened by the Operations Assistant. All receipts are immediately marked "for deposit only". The cash receipts are deposited every 3 – 5 business days in the appropriate cash account either in Five Star Bank, Key Bank, or Tompkins Community Bank. Some receipts are received directly into bank accounts via ACH/wire transfer. Posting of cash receipts to accounts receivable is done by the Finance Assistant. The postings are done promptly and accurately recorded as to customer account, amount and period. The Operations Manager reviews deposits and postings to customer accounts and general ledger accounts. Any adjustments to cash accounts are approved by the CFO. Cash held on site is stored in a locked file cabinet and kept independent of mail receipts. A PayPal account is used for annual meeting registration fees paid. Email notifications are received when payments have been made. PayPal deposits are recorded in the general ledger weekly by the Finance Assistant and the Operations Manager reviews the monthly activity.

Cash Disbursements

Cash disbursements are made by check, online payments, online bill pay or bank wire, except for small amounts from petty cash. Online payments and online bill pay are only made to ensure that bills are paid on time and to prevent late payment charges.

All checks require two signatures. GCEDC checks must be co-signed by at least one board member. GGLDC checks are signed by two board members. The GCEDC and GGLDC Audit & Finance Committee members are authorized bank signers.

All GCEDC line of credit withdrawals must be co-signed by at least one board member. GGLDC line of credit withdrawals must be signed by two board members.

Checks are pre-numbered and the sequence is accounted for regularly. All blank checks are kept in a secure location. All cash disbursement records are matched against accounts payable/open invoice files by the Operations Manager.

Invoices received are date-stamped by the Operations Assistant and given to the Finance Assistant for review, tracking against contracts in place, to make sure supporting documentation is attached, and to ensure that the appropriate person signs off for approval of payment. All invoices are then reviewed by the Operations Manager and the CFO prior to disbursement checks being prepared. Checks are prepared by the Finance Assistant, only after proper matching of supporting documentation. Supporting documentation is marked with the check number when a check is prepared. The check signer reviews all supporting documentation. Purchasing documents are accounted for and controlled by the Operations Manager. Signed disbursement checks are returned to the Finance Assistant / Operations Assistant for mailing. *Mitigating controls: The CFO opens and reviews bank statements and does not have authorization to sign checks.*

All bank and interfund transfers are authorized by the CFO and President/CEO.

The individual(s) charged with the billing duties is also responsible for accounts receivable with the Operations Manager monitoring and reviewing the process.

Pledges Receivable (Not Applicable)

Collections

There are no established credit policies.

When cash payments are received they are posted to customer accounts by the Finance Assistant. The GCEDC/GGLDC does not prepare regular customer statements. Invoices for rent and revolving loan fund payments are mailed once a month and outstanding invoices older than 30 days are followed up via telephone by the Operations Manager, President/CEO, or CFO.

Trial Balance

The accounts receivable aging is maintained separately from the general ledger. The aging is reconciled once a month by the Operations Manager. Program revenues recorded are compared with the budget monthly by the Operations Manager and any significant deviations from budget are investigated and explained.

Allowance for Doubtful Accounts Program Services fee write-offs:

All write-offs to rent or revolving loan fund accounts are approved by the GCEDC/GGLDC Board of Directors. The accounts receivable aging is reviewed monthly by the Operations Manager. Accounts are deemed possibly uncollectible and written off to the allowance for doubtful accounts when they meet the following criteria: When the board of directors determines that all efforts to collect have been exhausted.

EXPENSES FOR PROGRAM AND SUPPORTING SERVICES AND ACCOUNTS PAYABLE AND PURCHASES CONTROL ACTIVITIES

Purchasing (Other than Inventory)

Purchasing is done by the Operations Assistant. For all purchases (other than items of inventory), the purchases are supported by approvals and authorizations. The GCEDC/GGLDC does not require pre-numbered purchase orders. Individuals with the right to approve and authorize purchases are the President/CEO and CFO. The Operations Manager approves purchases of supplies, equipment and postage that are within budget as well as any other purchases that were planned for within the budget.

Receiving, Recording Payable and Expense

When the ordered items are received, they are inspected for condition and counted by the Operations Assistant. Due to the small nature of the organization, full segregation of duties is not possible. The individual responsible for receiving is also responsible for purchasing, with oversight by Operations Manager or Finance Assistant.

The invoices subsequently received from vendors are matched up to the purchase orders and receiving reports and compared for quantities received, product ordered, pricing and clerical accuracy by the Operations Manager. For any goods that are returned, the shipping documents are maintained and reviewed and matched to vendor credit memos.

The payables are paid approximately twice a month by the Finance Assistant. The checks are reviewed and signed by two authorized bank account signers.

Trial Balance

The accounts payable aging is maintained separately from the general ledger. The aging is reconciled monthly by the Operations Manager. The GCEDC/GGLDC does not prepare monthly vendor statements. The President/CEO, CFO and the Audit & Finance Committee review the detailed monthly financial statements and compare the balances in expense accounts to budgeted amounts and any significant deviations from expectations are investigated and explained.

GCEDC PAYROLL AND EMPLOYEE BENEFITS CONTROL ACTIVITIES

Payroll

Employees are paid biweekly out of the Five Star Bank primary checking account. Funds are transferred into the account used for payroll from the Five Star Bank primary savings account by the Operations Manager. The GCEDC transfers funds to cover payroll as needed. All fund transfers are authorized by the CFO and President/CEO. Employees are never paid in cash.

Salaried employees are not required to submit weekly time records however; a record of absence is to be maintained by each employee, kept current and electronically stored in a common location as directed. Employees must have vacation compensation approved by the President/CEO or CFO. The individuals responsible for approving time are not responsible for processing or recording payroll.

Hourly employees are required to submit bi-weekly time records to their supervisor to report hours worked.

Complete Payroll Processing is the service provider used to process payroll. All the payroll information provided to the service organization such as pay rates and withholdings is authorized by the President/CEO and/or CFO. Bi-weekly payroll information is submitted to Complete Payroll Processing by the Operations Manager after compiling adequate support for the time worked by the employees. The registers produced by the service are reviewed after processing and approved by Operations Manager. The review is done to ensure the payroll transactions are only for authorized employees and that the correct pay rate is used. GCEDC does not pay commission to its employees.

All payroll checks are pre-numbered and used in sequence and any unissued checks are controlled by Complete Payroll Processing.

When new employees are hired they complete the appropriate paperwork including withholding forms and authorizations for payroll deductions that are maintained in personnel files by the Operations Manager and are entered into the payroll system by the Operations Manager. When employees are terminated they are removed from the payroll system by the Operations Manager. When there are raises or changes in pay rates, they are approved by the President/CEO or CFO and entered into the payroll system by the Operations Manager. All changes in personnel data are reported promptly so they can be properly taken care of in the payroll database.

The timely remittance of payroll taxes and of the payroll tax returns is overseen by Complete Payroll Processing.

Employee Benefits

For all benefits provided to employees such as health insurance, retirement plans, and fringe benefits, support is maintained in the personnel files authorizing deductions by the Operations Manager. Individuals with the appropriate level of knowledge are responsible for monitoring employee benefit matters and for ensuring withholdings such as 403(b) or NYS Deferred Compensation deferrals and cafeteria plan withholdings are remitted timely. These individuals include the CFO and Operations Manager.

Trial Balance

The Operations Manager reviews the monthly financial statements and compares the balances in the payroll and employee benefit expense accounts to budgeted amounts and any significant deviations from expectations are investigated and explained. The detailed payroll records are also reconciled by the Operations Manager to the payroll tax returns quarterly, and the total W-2s are reconciled to the general ledger at year end by the Operations Manager.

When necessary the appropriate payroll accruals including accruals for compensated absences are made to the general ledger by the Operations Manager.

Computers / IT

All computers are password protected. Accounting software is password protected. Each user has an independent password. Those with access to the Peachtree system are the Operations Manager, Finance Assistant, and CFO. The CFO does not post or change any data in the system; he/she reviews data only.

All employee computer files are backed up to the server and the server is backed up to an off-site location (Erie County IDA) on a nightly basis. The back-up is monitored by the IT Consultant and the Operations Manager.
