Batavia, NY 14020

Re: Project Gateway

Dear Mr. Hyde:

We are writing you this letter to commence our application in connection with the proposed purchase of approximately 50 acres of land ("Application") located at the Science & Technology Advanced Manufacturing Park ("STAMP") from the Genesee County Industrial Development Agency d/b/a Genesee County Economic Development Center ("GCEDC") for a proposed project ("Project"). We understand that the GCEDC has been developing STAMP as an advanced manufacturing shovel ready industrial park and has completed an Environmental Impact Statement ("EIS") for STAMP pursuant to the State Environmental Quality Review Act ("SEQRA").

We have completed relevant portions of the attached Full Environmental Assessment Form ("EAF") that describes the Project, including its utility use and potential site impacts. We are requesting that the GCEDC undertake a review of the Project to determine whether the Project has the potential to have any adverse environmental impacts that were not previously addressed in the EIS. We will also be submitting additional documentation relating to the Application to the GCEDC with respect to the specific financial incentives requested for the Project.

If you have any questions, or require additional information, please do not hesitate to contact us.

Sincerely,

A handwritten signature in blue ink, appearing to read "Brenor Brophy".

Brenor Brophy, Vice President Project Development
