Re: Corrections to STAMP Permits, Fact Sheet, and Responsiveness Summary
SPDES Permit: DEC No. 8-9908-00210/00005, SPDES No. NY0272078
Freshwater Wetland Permit: DEC No. 8-9908-00210/00007
Alabama (T), Shelby (T), Genesee (C)

Dear Mr. Masse:

The purpose of this letter is to transmit the corrected State Pollutant Discharge Elimination System (SPDES) permit, Fact Sheet, Responsiveness Summary, and Article 24 Freshwater Wetlands Permit for DEC permits recently issued for the Western New York Science, Technology and Advanced Manufacturing Park (STAMP) project. These include permits and documents related to the wastewater treatment facility (WWTF) and WWTF force main.

The SPDES permit includes corrected page numbers.

The earlier SPDES Fact Sheet read, "The permit condition that requires short term monitoring instream of the DO remains in the permit to confirm that the DO limit is being met." That sentence is corrected to, "The permit condition that requires short term monitoring of the DO is in the permit to confirm that the DO limit is being met."

The Environmental Conservation Law Article 24 Freshwater Wetland (FWW) permit Condition 8 is corrected to align with the Finding Statement to authorize construction of the force main during winter months, based on conditions for all work, equipment, and staging to be restricted to within the Right of Way (ROW) of the road. As described on page 8 of the Findings Statement, the Department determined that this activity is non-jurisdictional under Part 182; it would not affect the overwintering raptors because the road and ROW are previously disturbed areas and have an ongoing disturbance due to traffic. Therefore, by restricting all winter work to the ROW, Part 182 jurisdictional areas would not be impacted.

The earlier SPDES Responsiveness Summary included the phrase, "Genesee County Economic Development Center d/b/a Genesee Economic Development Center." This phrase is corrected to, "Genesee County Industrial Development Agency d/b/a Genesee County Economic Development Center."

Please contact me at (585) 226-5393 or Kimberly Merchant at (585) 226-5396 with questions pertaining to these corrected documents.

Sincerely,

Thomas P. Haley
Regional Permit Administrator
