Re: Science and Technology Advanced Manufacturing Park (STAMP) Site  
Permit Issuance  
WWTF and Force main: SPDES Permit, 8-9908-00210/00005, NY0272078  
Freshwater Wetland Permit, 8-9908-00210/00007  
WWTF, Laydown Area, Substation: Part 182 Permit 8-1899-00032/00001  
DEC Findings Statement  
Force main BOD Acceptance Letter  
Alabama (T), Genesee (C)

Dear Mr. Masse:

The purpose of this letter is to transmit the new State Pollutant Discharge Elimination System (SPDES) permit and the Article 24 Freshwater Wetlands Permit for the above referenced WWTF and Force main and associated documents and Responsiveness Summary.

This letter also transmits the Part 182 Permit for the WWTF, Laydown Area, Substation and associated roads and Responsiveness Summary.

The Permits and Responsiveness Summaries will be sent to all commentors under separate cover.

This letter also conveys the Department's Findings Statement for all the above referenced permits. .

In addition, we are sending the STAMP Force Main and Main Pump Station Basis of Design (BOD) Report Acceptance letter.

Mr. Mark Masse  
GCECD

Please read each permit and required conditions carefully, because many conditions require specific actions on your part, and let us know immediately if you believe there are any conditions which cannot be met in full.

Please note that under 6 NYCRR Part 621.10 of the Uniform Procedures Act, if a permit for a project is denied, or is issued with significant conditions attached and an adjudicatory public hearing was not held, then the applicant may request that one be held. Such a request must be made within 30 calendar days of the date of the mailing of either the notice of denial or the permit with conditions.

Please note: an application to renew the SPDES permit must be submitted to the New York State Department of Environmental Conservation (NYSDEC) at least 180 days prior to permit expiration pursuant to 6 NYCRR Part 621.11(b).

Please contact me at (585) 226-5393 or Kimberly Merchant at (585)226-5396 if you have any questions pertaining to this submittal. If any questions arise or if problems develop with the WWTF facility during the life of this permit, please contact Jonathan Tamargo with the Division of Water at (585)226-5451. If you have questions pertaining to the Part 182 permit requirements, please contact Heidi Kennedy at (585)948-5182.

Sincerely,

Thomas P. Haley  
Regional Permit Administrator
